# «Больше» «Меньше» «Равно»

**Тип урока:** открытие новых знаний

**Цель урока:** Познакомить учащихся со смыслом отношений «больше», «меньше», «равно».

**Планируемые результаты:** научатся сравнивать группы предметов, делать вывод в каких группах предметов поровну, в какой группе предметов больше (меньше) и на сколько.

Листья каких деревьев вы видите?

Сколько среди них дубовых?

Сколько среди них кленовых?

Как узнали?

Каких листьев больше? Почему?
