

«The Present Perfect Tense»

Present Perfect Tense (Present Perfect) — это настоящее совершенное время в английском языке. Оно обозначает действие, которое завершилось в настоящий момент времени.

Завершенное действие в настоящем

В таком случае акцент ставится на результат завершенного действия. Другими словами, когда результат действия виден в настоящем.

I have cooked a good dinner — Я приготовил хороший ужин (действие завершилось, результат — хороший ужин)

Факт действия / личный опыт

Если говорящему важно подчеркнуть факт какого-то свершившегося события без точного указания времени. Часто это время используется, когда мы говорим о своем прошлом опыте или же, спрашиваем об этом своего собеседника.

I have been to London — Я был (бывал) в Лондоне
