# The city of Ryazan

Ryazan is a city with a 900 year history. There are many cultural sites and ancient buildings here. Right in the picture you can see the most popular of them - Ryazan kremlin. This place is known not only for its cultural value but also for it's popularity among graduates of the school who meet the dawn here.

# Theaters

Talking about cultural value we can't skip theaters. In the left picture you see the drama theater, the biggest and the most famous one. But my personally favorite is on the right - puppet theater. I like how they involve both people and dolls in the play. («...and the punishment» is the best play ever!!)

# Parks

There are obviously a plenty of parks in Ryazan so I'll tell you only about 2. The left one is called a memorial park. It's quite big and well-maintained. There is a pond and a beautiful hotel «Konyushenny dvor» next to it. The right one is central park of culture and recreation. There are a pond near it with ducks in there too. Also there are many squirrels who are not afraid of people at all.

# THANKS FOR ATTENTION
