Lyceum №4
Form 10 A

Great wall

Height of a wall was 9 meters, and width was such that the chariot could pass on it .The great wall is the silhouette of a Chinese dragon whose head is on the West and tail is on the East.

Inventions

The Chinese were great inventors. In the 11 century BC they invented paper, later printing with wooden stamps. Gunpowder was invented too. The Chinese invented the printing press.

The craft and art of China

Calligraphy, the art of beautiful writing, was very popular in China. Artists decorated pottery with colored glaze.

Religion

The Chinese never had faith in one God. They deified nature by worshipping the spirits of mountains, rivers and trees.

Terracotta army

The Imperial tomb with " terracotta army " was built on mount Lee. Soldiers and horses are standing in row after row Inside the tomb in the underground corridors.

Thanks for watching.
