

Homework

File Workflow (Approval functionality)

- There are 2 places to setup 'Auto Apply' settings:
 - [File Configuration] page available for users;
 - [File Dashboard] page (with list of files related to the Client) available for administrators.
- If Approval = 'Auto Apply' then the file is downloaded without manual actions;
- If Approval = 'Peer Review' then the file downloading is stopped after validation phase and can be downloaded only after an administrator's approval
- File can be approved from 2 pages by pressing on a button:
 - [File Breakdown] page with the file statistic;
 - [Errors and Warnings] page with the error details tabs
- User can Cancel the action, approve or reject the file

Homework

- If Approval = 'Auto Apply' and a file is failed on validation step, user can:
 - Correct errors
 - Skip the file

- After the error corrections user can:
 - Remediate the file
 - Skip the file

- After file remediation user can
 - File is uploaded without errors
 - File is not uploaded because of errors

- After the file was skipped user can:
 - Return the file back (to failed state)
 - Delete the file

Homework

- If Approval = 'Peer Review' and a file does not contain errors, user can:
 - Approve the file
 - Reject the file
- If Approval = 'Peer Review' and a file contains errors, user can:
 - Correct errors
 - Skip the file
 - Approve
 - Reject

- After the error(s) correction user can
 - Remediate the file
 - Skip the file
 - Approve
 - Reject

- After the file remediation the file can be:
 - Uploaded without errors
 - Not uploaded because of errors
- After the file was skipped user can:
 - Return the file back (to failed state)
 - Delete the file

Homework

□ Approve button is:

- Active if file is ready for approval
- Inactive if file is not ready for approval (no file uploaded; file is in progress before approval; file is in progress after approval; file is uploaded)
- Disabled for file with “Auto Apply” option

Homework

- ❑ **Requirement 1:** 'Peer Review' settings value is applied for future files only
