An aerial photograph of a wide, winding river system, likely the St. Lawrence River, captured at sunset. The sky is a vibrant mix of orange, red, and purple, with the sun low on the horizon. The river's surface reflects the warm colors of the sky, creating a shimmering path through the dark, forested landscape. The river meanders through the land, with several large, rounded islands and peninsulas. The surrounding terrain is a mix of dark green forests and lighter green fields. The overall mood is serene and majestic.

The background of the cover is a high-angle, black and white aerial photograph of a dense forest. A narrow stream or path winds through the trees, and a small, dark boat is visible on the water in the lower-left quadrant. The overall tone is somber and historical.
