

If your participation in a study ... would allow you to finance
your next trip?

The principle is simple:

- you test beauty products and give your opinion
- you receive financial compensation for your participation

So ... what will be the destination that will be partly funded by your participation in the studies?

An outdoor stay?

To the beach ?

At the mountain ?

An activity this summer in Montreal?

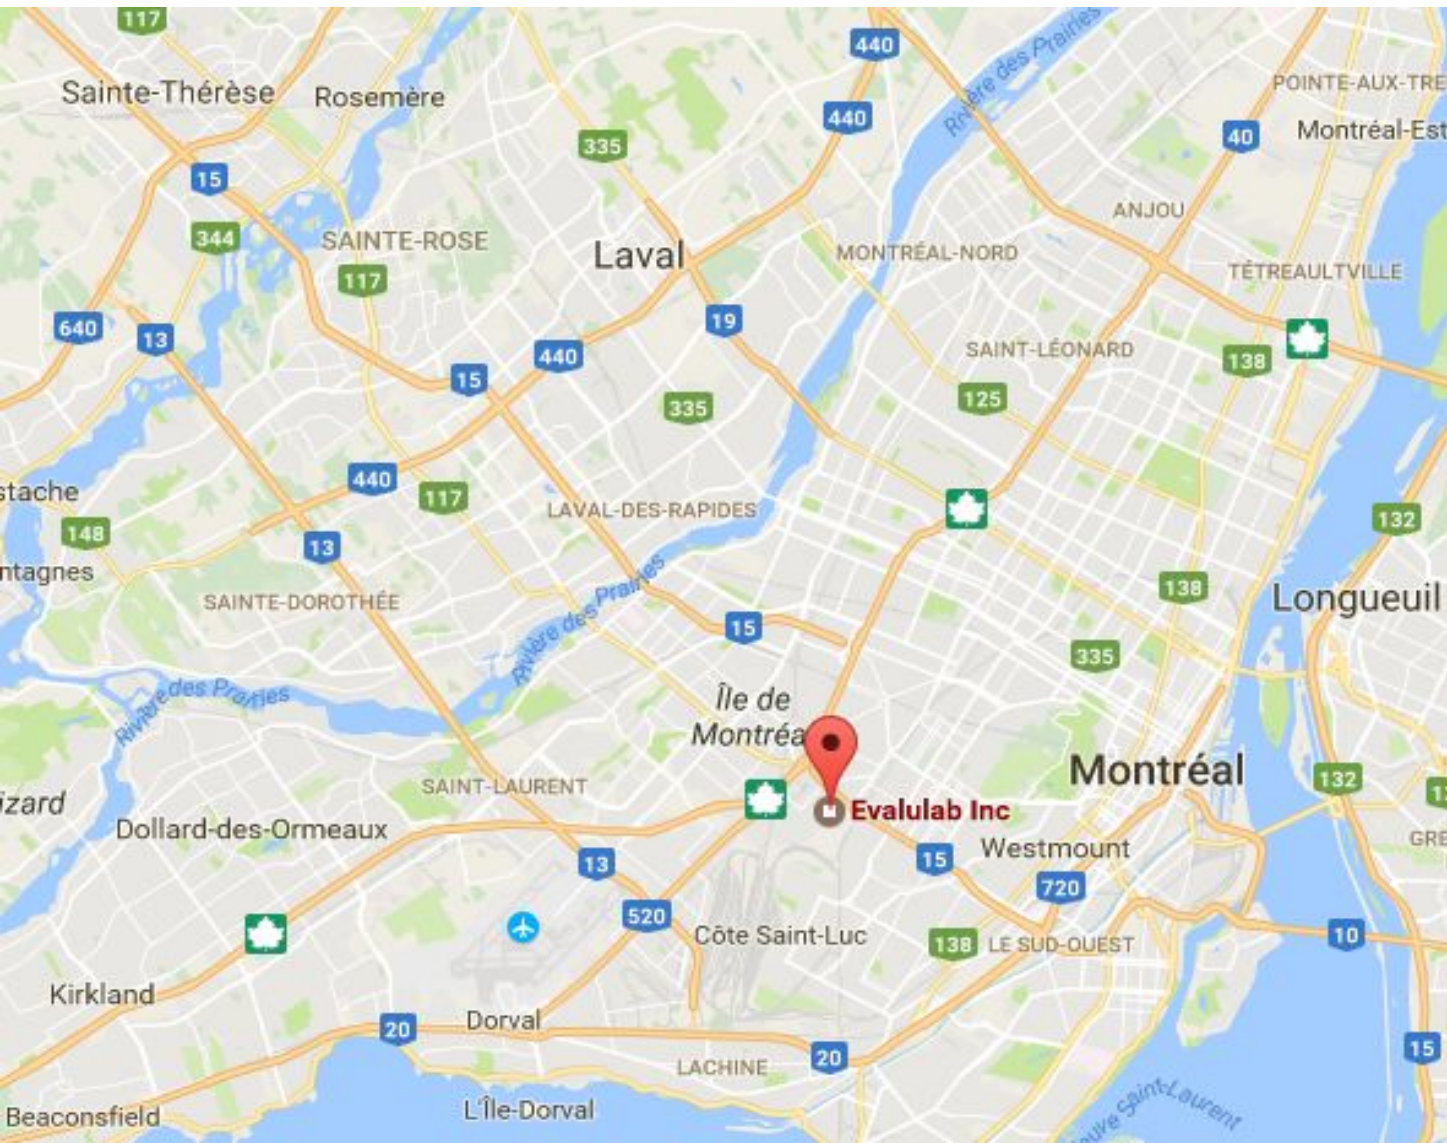

Or no idea yet but full of projects ?!

Our volunteers who take part in the studies
receive compensation
Which allows them to enjoy themselves on a
trip!

We look forward to seeing you!
