Imported Customization comment from Configuration form (not editable).

- Import Customizations information from Configurator (for all Item number column records, Embellishment type and Customization comments).
- Add Verification for Names configuration (every Name has the same amount and type of Embellishments, and the same Font type attribute). Font type attribute – always the same for all Names and will be defaulted after it chosen for the first Name. Font type attribute can be changed manually, if needed (info message will be shown).
- Embellishment Position and Comment are not editable.
- Only Text and Font type attribute can differ for different Names, other fields will be the same.

All Marks roles need these changes.

MRP creates the Production Order

Receive and Transfer new Qty: 5. Start PDP00002504 for Qty: 5.

The screenshot shows the 'Start (1 - 5003)' window in SAP. It displays a table with columns for Production, Name, Item number, Status, Size, Colour, Configuration, and Position. The 'Production' column contains the value 'PDP00002504'. The 'Name' column lists 'Alona', 'Ovis', and 'Andrey', all with 'Item number' 'CS\_4075'. The 'Status' column is empty. The 'Size' is 'W28 \* L32', 'Colour' is 'BROWN', and 'Configuration' is 'Embroidery\_Name:CL:2+Keyboarding:CR:2; BROWN: W28 \* L32: 4075'. The 'Position' is 'CL'. To the right of the table, there are summary fields: 'Qty Total' with values 3, 10, and 12; 'PDP' with a value of 5; and 'Remaining Qty'.

| Production  | Name   | Item number | Status | Size      | Colour | Configuration                                                 | Position | Qty Total | PDP | Remaining Qty |
