About us

Cultured pearls are very valuable jewels in today's world. No jewelry box looks complete without cultured pearl jewelry. Just like natural pearls, each cultured pearl is different from one another. The value of the cultured pearl depends on the color, size, shape, and luster. The brightness and luster of the cultured pearl speaks volumes about the quality.

The very first question most people have when exploring the realm of anti-aging skin care is

The Retin A or Renova vitamin A treatments are the strongest although the most irritating treatments of the vitamin A options and are only available by prescription.

If your skin needs major rejuvenation attention, ask your Doctor if you are a candidate for the prescription vitamin A treatment of Retin A or Renova. If not, including one of the other retinol alternatives in your skin care routine is an excellent strategy. The concentration of over-the-counter retinol products can range up to 1%.

The basic rule of thumb is, the higher the concentration, the stronger the treatment. Be forewarned though, read the directions carefully because the stronger retinol products can be quite irritating to the skin. Starting slow and gradually working your way up to higher concentrations will allow your skin to adjust to the treatments better.

The Natural Beauty

It is rare that a luxury lifestyle brand is in a position to launch with a history dating back 70 years and a story as relevant and iconic today as many decades ago, but with its re-launch in May 2017.

In 1946, Louis Réard who was working in the car industry, created a garment that embodied the new-found independence many women had acquired in post-war Europe. Strong and liberated for the first time, women were keen to find new ways to express their hope for the future through the clothes they wore.

Cultured pearls are very valuable jewels in today's world. No jewelry box looks complete without cultured pearl jewelry. Just like natural pearls, each cultured pearl is different from one another.
