

# Немного о пауках

- Домен: **эукариоты (Eukaryota)**
- Царство: **животные (Animalia)**
- Тип: **членистоногие (Arthropoda)**
- Подтип: **хелицеровые (Chelicerata)**
- Класс: **паукообразные (Arachnida)**
- Отряд: **пауки (Araneae, Aranei)**
- Двусторонне-симметричные
- Первичноротые
- Линяющие

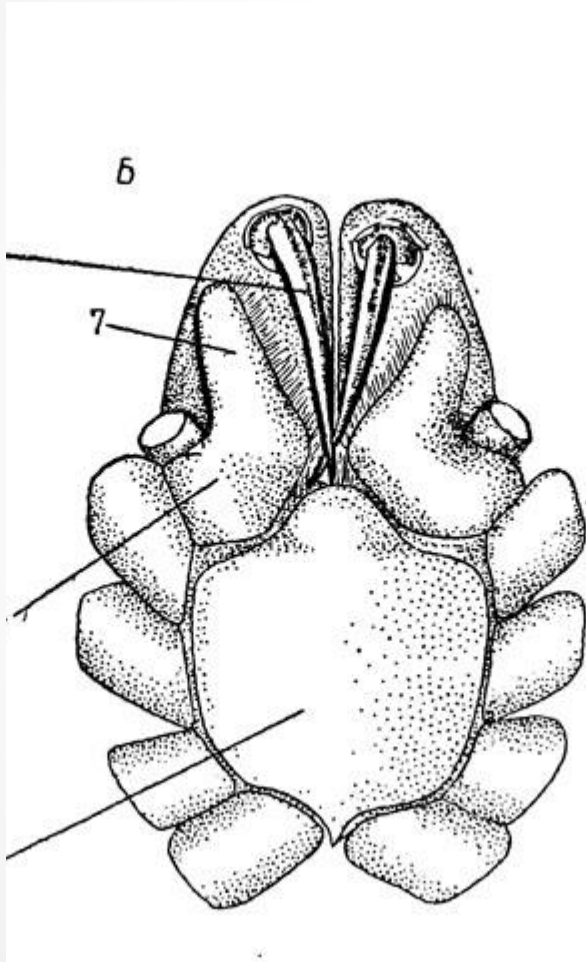

# Внешнее строение паука

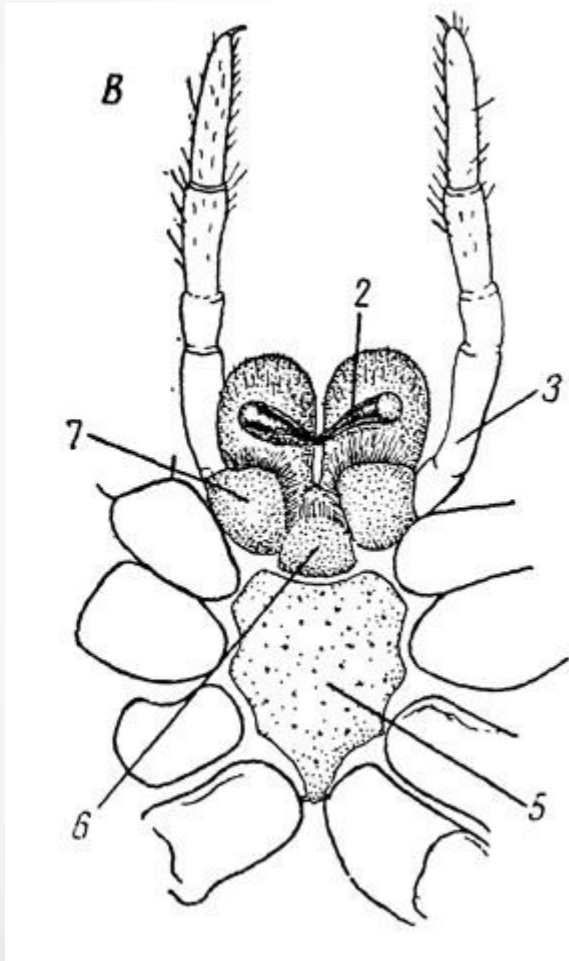

# Инфраотряд мигаломорфные пауки

- Ортогнатное строение хелицер

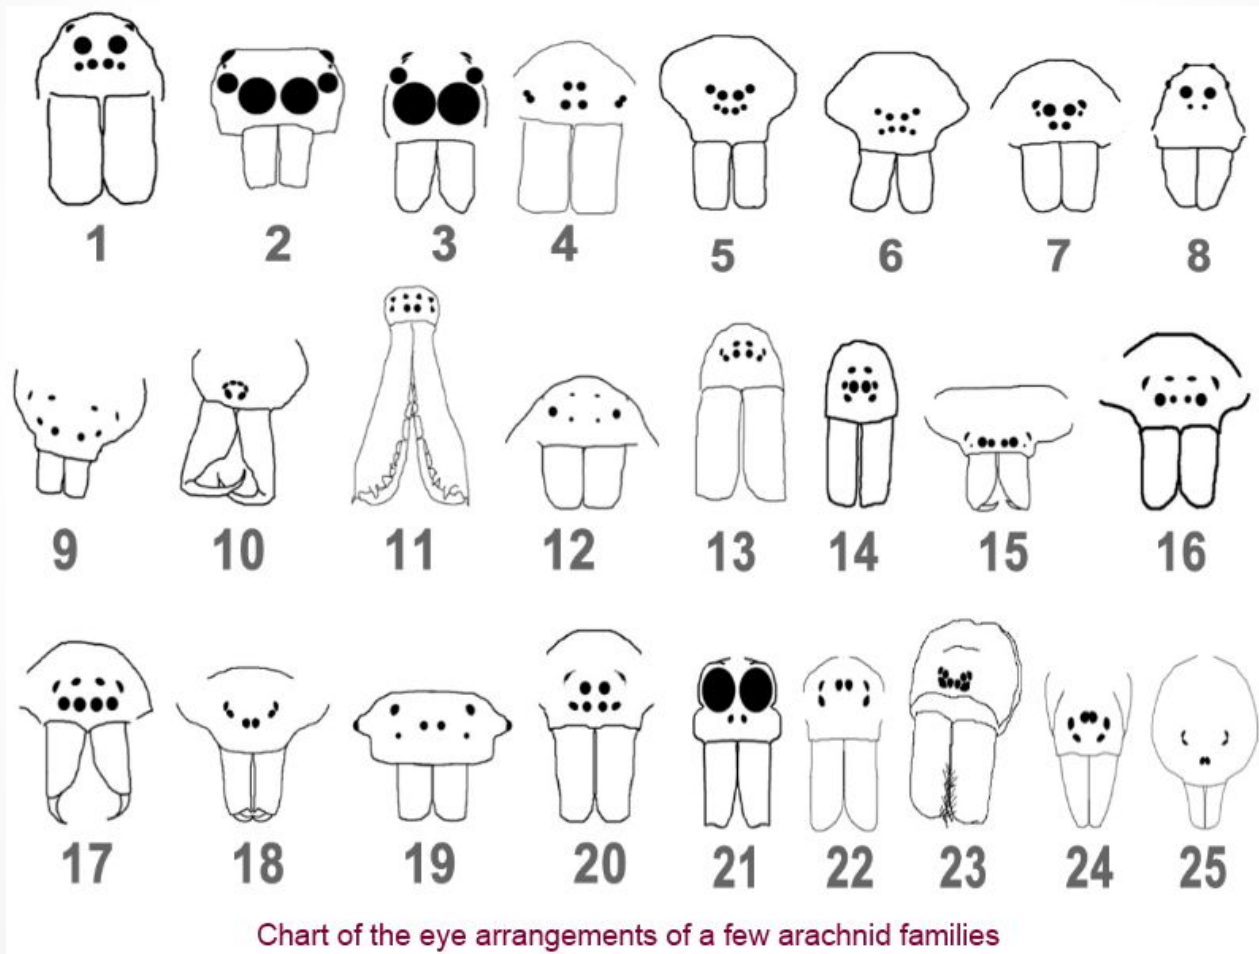

# Инфраотряд аранеоморфные пауки

- Лабидогнатное строение хелицер
