

Policeman from the ruble Today I want to tell you about a very funny youth series called "Policeman from the ruble". Namely, the impressions that I received from him.

Each episode of this series is filled with various jokes, naturally it is uplifting, and the series has an exciting storyline. If you start to watch it and it will tighten you, I can say that you will not calm down until you see it to the end. I watched season 4, which consists of 8 episodes, each lasting about 50 minutes, in one day, which approximately took 6 hours and 40 minutes.

Most of all I liked exactly season 4 (at the moment it is the last) for very funny jokes and banter and for the tangled storyline. Here wont be a spoilers, that you do not lose interest.

That's all, I advise everyone to see it.

Comments about that will you watch this series or have already watched you can leave here:
