

Adani Vidya Mandir, Ahmedabad134 to 996 students in 12 Years

A LONG CHERISHED DREAM....

'AN IDEAL TEMPLE OF LEARNING'

November 30, 2009

IDENTITY AND RESPONSIBILITY

Adani Vidya Mandir is truly 'An Ideal Temple of Learning' for those children, who are blessed with talents; but face economic disadvantages.

Adani Foundation nurtures these talented students and provides them cost free high quality education with complimentary support in transport, uniform, books and healthy meals.

IDENTITY AND RESPONSIBILITY

OUR VISION

- ✓ To be recognized as a school with a distinction, providing education to enable young children to become high achievers in chosen fields and responsible citizens, thus leading to man-making and nation-building.
- ✓ To develop a global mind-set that can build unique capabilities, which will transcend cultures in order to create value for self and society.

OUR MISSION

- ✓ To provide cost-free quality education to the children of economically challenged families, who have high intelligence and skills, but not the opportunity to explore and expand them to build a secure life?
- ✓ To recognize and enable such students to reach at definite stature in their chosen fields.
- ✓ To facilitate the students' progress in academics as well as co-curricular activities. To undertake special initiatives in order to reach out to every student admitted, in order to bring out the best in them.

THE FOUNDING TEAM

ABOUT THE

Established in June 2008, Adani Vidya Mandir, Ahmedabad is Co-ed, English Medium and affiliated to CBSE, New Delhi.

Admission is open to class 4 students, those of who reside in 11 kms radius of the school.

OUR TEAM

Class Staff Ratio: 1:1.4
Staff Student Ratio: 1: 26

15-year-old wins free trip to NASA

Parth Patel, son of a vet who earns Rs 6,000 a month, won sponsorship exam and a 10-day trip to world famous space centre in the US

Megha.Bhatt
@timesgroup.com

Can a 15-year-old boy from a family of modest means think of free trip to NASA? Even the wildest dream would discard the thought. But it is a reality for Parth Patel who went on a 10-day visit to the famous space agency in the US.

Son of a veterinary doctor who earns Rs 6,000 a month, Parth, who was part of the group of 30 other students that went to NASA, is the first in his family to board an aircraft. The other students of the group paid Rs 2 lakh for the visit.

"I can't say it was a dream come true because this was something I had never thought even in dreams. It is pleasantly shocking," said Parth who has cleared his class 10 exam from CBSE with 9.4 points.

Parth's school Adani Vidya Mandir had conducted a test of 50 marks for class 8, 9 and 10 students after NASA proposed to fund two students' visit for free.

"The test had several questions on NASA. To prepare for the test, I took the help of teachers, downloaded materials from websites and used library. I stood first in the class so the opportunity came to me," said elated Parth.

Parth recounted the experience of

enters the earth's atmosphere, there is a tumbling effect. And when the space shuttle rotates, astronauts also rotate," he said.

"The visit has added to my science knowledge. One cannot experience space travel by sitting in classrooms. We learnt how one can reduce waste materials and control space shuttle and biological conditions in the space," said Parth who just can't stop thanking his school for the opportunity.

The boy has not decided about his career options but is greatly impressed by the structure of Saturn-5, the rocket used in Apollo mission.

Apart from science, said Parth, he learnt about diversified culture, team work and essential components to achieve success.

He also got the certificate of Advanced Space Academy Wings for meeting the requirements of Advanced Space Academy in Huntsville, Alabama.

Subhashini Govindan, the school principal, said: "It is a matter of pride for our school. Every child now looks up to Parth."

He also visited World Trade Centre. The students were given space suits and space T-shirts and were instructed about schedules, rules and regulations, activities, missions.

THE EXPERIENCE

"It was wonderful to be a part of virtual systems. It was great to sit in the mission control centre located on the earth. We were also explained Multi-axis training. We were told when a space shuttle
