THE PROFESSION OF LAND AND PROPERTY RELATIONS

- Such a profession as land and property relations did not exist as such. The land was considered state land and had nothing to do with the market. Only after the reform has been carried out, the land becomes capital, private property.

THE FEATURES OF THE PROFESSION OF LAND AND PROPERTY RELATIONS

Those who decided to devote themselves to the profession of land and property relations, will come into contact with real estate, with property that needs to be evaluated, taken into account or overestimated.

A PROFESSIONAL MUST KNOW:

- legislation and regulation of valuation activities;
- the classification methods, the specifics of the evaluation;
- EGRP – single state register;
- different technology;
- registration and documentation procedures;
- types of securities;
- basis and methods of privatization;

SPECIALTY: "LAND AND PROPERTY RELATIONS" IS NEEDED FOR:

Buy, rent, rent or sell an apartment, to issue their own rights to a country house or suburban area – all this is impossible without a qualified assessment and professional advice.

A person of this profession is a marketer who studies the market, a lawyer who prepares documents, an economist who has to calculate everything correctly, and even a math teacher who uses formulas.

The background is a dark blue gradient. In the corners, there are decorative white and light blue circuit-like patterns consisting of lines and small circles, resembling a PCB or a network diagram.

Thank you for your attention!
