

AKMAR TRANSPORT

crewing agency

Our Mission

STRIVE TO IMPROVE YOUR FLEET

STRIVE TO IMPROVE YOUR FLEET

Be customer's first choice and recognized for the high standards in crewing agency

Assist clients business development by providing qualified, motivated and loyal seafarers

Our governance elements clearly state who we are, what we stand for and how we conduct business

Our history

2006

Akmar Transport LTD has been established in 2006 as the company providing high quality standards of crew supply matching progressing requirements of world shipping being the partner to Mandial Ro-RO; SaminShipping; Barber Ship Management; Abuo Merhil etc.

2008

We started cooperation with Lomar Shipping on that moment operated fleet of more than 60 different units (Bulkers, Container Carriers and Multi Purpose vessels)

2009

This year marked to us in the huge expertise of our proficiency level in work with RO-RO fleet in the name of Sallaum Lines - one of the biggest world car carriers lines.

2012

We expanded our workforce starting cooperation with Herald Maritime Services – major operator of oil/chemical tankers fleet.

2014

Brought us offshore fleet experience in the name of Kito – Iranian company specialized in Pipe Laying operations

Lomar Shipping owns and operates a mixed fleet of vessels from bulk carriers and container ships, to offshore vessels, LPG, product and chemical tankers which is supplied by our crew.

The vessels are operated by Ukrainian and Baltic crew mostly sharing experience with UK cadets. 90% of crew onboard are seafarers provided by Akmar Transport.

The huge program of fleet renewal requires full crew for new-built vessels familiar with modern shipping technologies what comes as another challenge in our cooperation

Sallaum Lines owned and chartered fleet is designed for handling a wide mix of vehicles and High/Heavy cargoes and consists of modern Pure Car & Truck Carrier (PCTC) vessels.

Peculiar properties and wide specialization of Ro-Ro fleet in general is another proof of our ability to fully meet each client personal requirements entirely satisfy his necessity in professional and experienced crew.

Since the beginning of our cooperation have been started in 2009 we have increased amount of our seafarers working in Sallaum Lines from 11% to 48% what is the best appraisal of our work.s

Our team fully satisfy each client special need.

From the beginning of our cooperation Akmar Transport is the only company that fully supplies electrical engineers for Samin Shipping fleet.

Samín Shipping owns and operates new-built bulk carriers equipped with modern hydraulic cranes and electronic systems which implies very complex requirements to each our candidate.

The keystone of our our company structure is to work impeccably providing the most efficient service to each client

Our organization helps each part of our team to operate as a clockwork and leads to secured results only
