

Comparing the UK and US Higher education systems

*Kostyleva A.
11"Zh"*

Costs of education

Harvard

51,904\$

81,944\$

Scholarships for those, who cannot pay for education (income of the applicant or his parents is less than 75,000\$ a year)

The tuition fee already covers student's accommodation, meals and study materials

Oxford

11,311\$

31,460 to 44,125\$

Scholarships for talented and diligent students

You don't have to apply to scholarships: universities will automatically assess your eligibility using the information of your final exam

Length of education

4 Years at the bachelor's degree

2 Years at the master's degree

3 Semesters (autumn, spring and summer)

August - **J**une

3 Years at the bachelor's degree

1 Year at the master's degree

3 Trimesters (winter, spring and summer)

September - **J**uly

accommodation

- Students share rooms with each other

On-campus housing

college classrooms, libraries and other facilities are within walking distance

- Single rooms are more common

Off-campus housing

more affordable and provide accommodation for international students

English test

Admission system

Requirements

Additional exams

IELTS

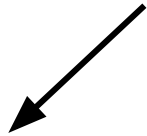

UCAS

A general questionnaire, a motivational letter, a list of expected grades, a school recommendation

None

enrolling

Key dates & deadlines

You know where do you want to study

You apply to several universities

Deadline: 1st of November

Early Decision / Early Action

Chances of admission are
far higher

Deadline: January 1st / February 1st

Regular Decision

Competition is higher

Sending documents six months to
a year before the trimester starts

Oxford, Cambridge, medical faculties

Other

Deadline: 15th of October

Deadline: 15th of January

Study programs

- Choice and freedom
- Transferring to another university is simple
- Curriculum can be customized, you can select professors, electives and subjects
- Suitable for students, that want to broaden their knowledge in different subjects

- Focused and specialized knowledge
- Transferring to another university is hard
- Curriculum is fixated, because British students limit the list of their subjects already in High School
- Suitable for students, who are confident in the chosen path

homework

Homework & grades

- Frequent tests, written work and verbal presentations
- 4.0 GPA scale with the traditional **A** to **F**

- Primarily aimed at lectures and your grades solely depend on the results of the exam
- Honors system from **First Class** to **Third Class**

employment

Employment

Student can take a professional paid internship program (12 to 29 months) to gain professional experience, then change the visa status or return home

Visa Policy

Student have only 2 to 4 months to change the visa status after graduation

On campus only: student center, bookstore, cafeteria
(to work off-campus you will have to apply for a Curricular Practical Training)

Work during studying

Off-campus: 20 hours a week part-time or full-time during holidays

American universities are in the top places of international rankings, Along with that, American students have more opportunities to gain practical experience, required for jobs

Work after graduation

British business schools train the best managers and executives, even though only 12% of international students prefer British Colleges

Student life

Stanford

has more than 625 specialized student groups and even have own athletic teams, Stanford Cardinal

Stanford Cardinal Football Team

Oxford

has about 400 clubs and societies

Oxford University Football Club

Both universities have orientation lessons, that will help you to integrate into a foreign culture and where you'll learn how to use university's basic services
