Watch the video and answer the questions:

- ▶ Who introduced the first London's Green Belt? Why? (Queen Elizabeth the first in 1580 designated a 3 mile wide radius around London, to contain the spread of swine fever.)
- ▶ What is the purpose of green belts? (The green belt offers in many cases protection to areas of openness, we have behind me areas of natural beauty...
- ▶ One of the arguments against London's Green Belt is that the green belt hasn't prevented the city from growing. Why? (In London's Green Belt it is difficult to get a permit for any construction on anything. And increases the inequality between people living in village areas and in the city)
