

THE HIDDEN CABLES

**Aisulu
Sarmurzina**

The problem

of Sockets

Sometimes there is **no place** to
put a fan near a socket

Sometimes **the length of the cable is not enough**

Sometimes you cannot move your TV because **there are no other sockets nearby**

Sometimes it is **not too easy to move appliances** while ironing

Sometimes you have **to stay near a socket** to charge your phone while playing a game

Of course, you can use an **extension cord** to fix the problem

But there will be
mess of cables

The solution

is to use
The Hidden Cables

Put a **cable spool**
inside the socket

The cable will work in the same way **as the cable of a vacuum machine**

To take the cable you need
to **press the socket**

We will cover the socket
with a lid **to protect kids**

The benefits

of using

The Hidden Cables

No need to look for an
extension cord

No mess of cables

Minimalism

The costs

of manufacturing
The Hidden Cables

Total: \$100 000

To establish a factory	\$50 000
------------------------	----------

To hire employees	\$20 000
-------------------	----------

To buy raw material	\$20 000
---------------------	----------

Other costs	\$10 000
-------------	----------

The price
of a
The Hidden Cable
is
\$5

What will be the benefit to you?!

You will
receive **20%**
of the shares

Thanks for your
attention!
stay safe and healthy
