

# All About Spring

# Spring

Spring is one of the four seasons.

spring

summer

autumn

winter

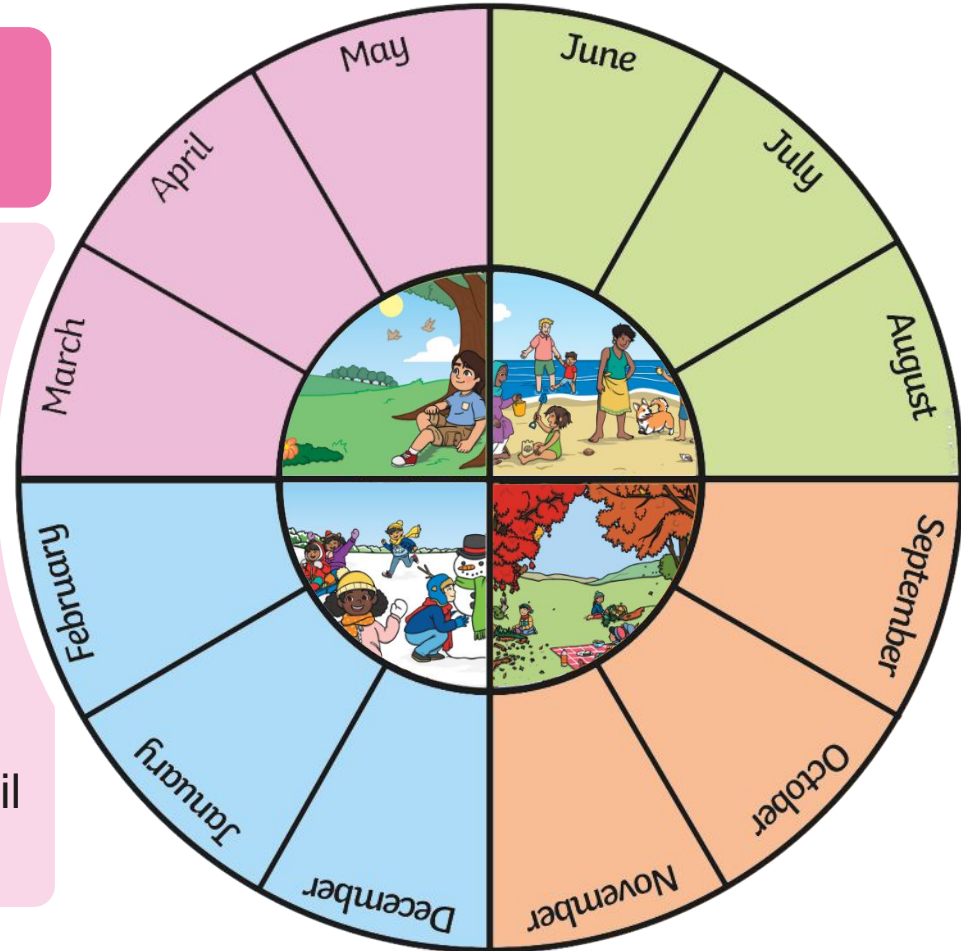

# Months and Seasons

In the UK, the spring months are March, April and May.

With a partner, look at the seasons wheel.

Name the winter months.

- If the month is October, what season is it?
- If the month is March, how many months are there until summer begins?

# What Does Spring Look Like?

# Spring Weather

Spring weather can be mixed.

What kinds of weather can we experience in spring?

Some days in spring might be cold, windy or rainy, while some may be warmer.

# Lighter Evenings

You may notice that it stays lighter for longer during the spring months. It may even be light when you go to bed!

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	April	May	June	July	Aug
Hours of sunlight	13	11	9	8	8	10	12	14	15	16	16	14

How many hours of daylight are there in April?  
Which month of spring has the most daylight hours?

# Some Special UK Spring Dates

1<sup>st</sup> March

St. David's  
Day (Wales)

17<sup>th</sup> March

St. Patrick's  
Day (Ireland)

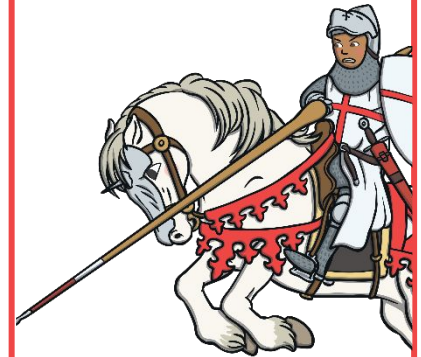

21<sup>st</sup> April

Queen  
Elizabeth II's  
birthday

23<sup>rd</sup> April

St. George's  
Day (England)

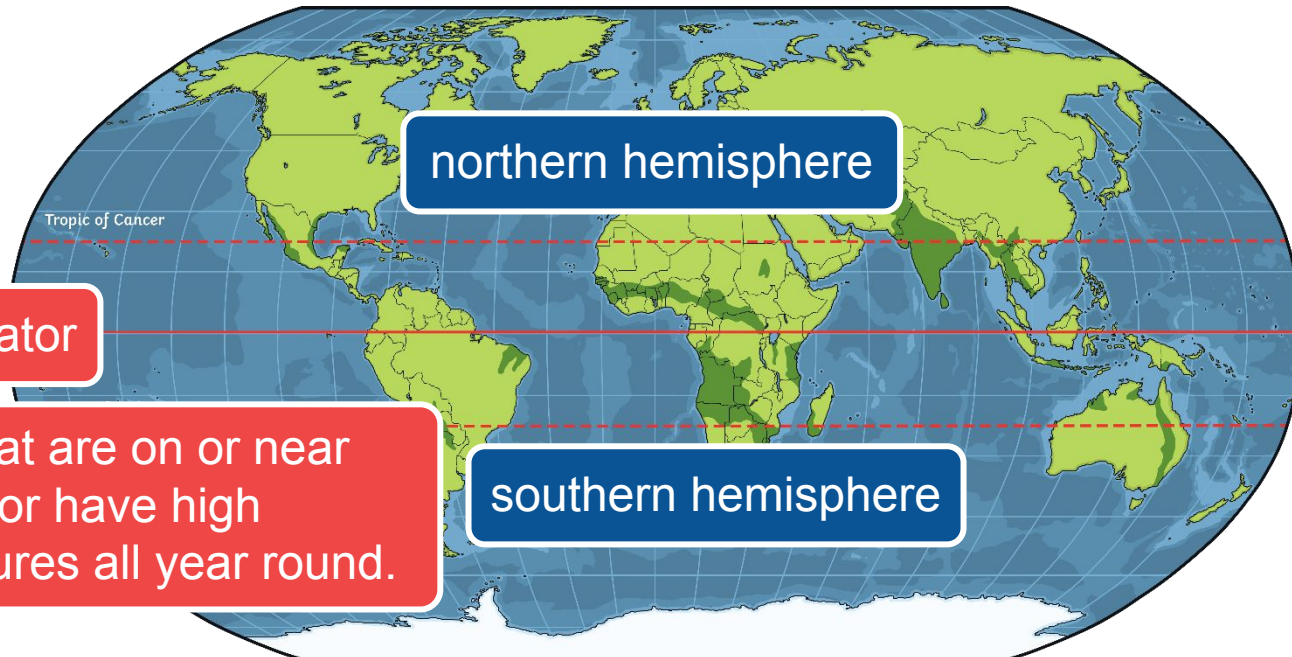

Will you be celebrating any of these events?

# Spring around the World

Spring falls in different months of the year, depending on where you are in the world.

The UK (United Kingdom) is in the northern hemisphere of the earth. The bottom half is called the southern hemisphere. The two hemispheres are split by an imaginary line called the equator.

equator

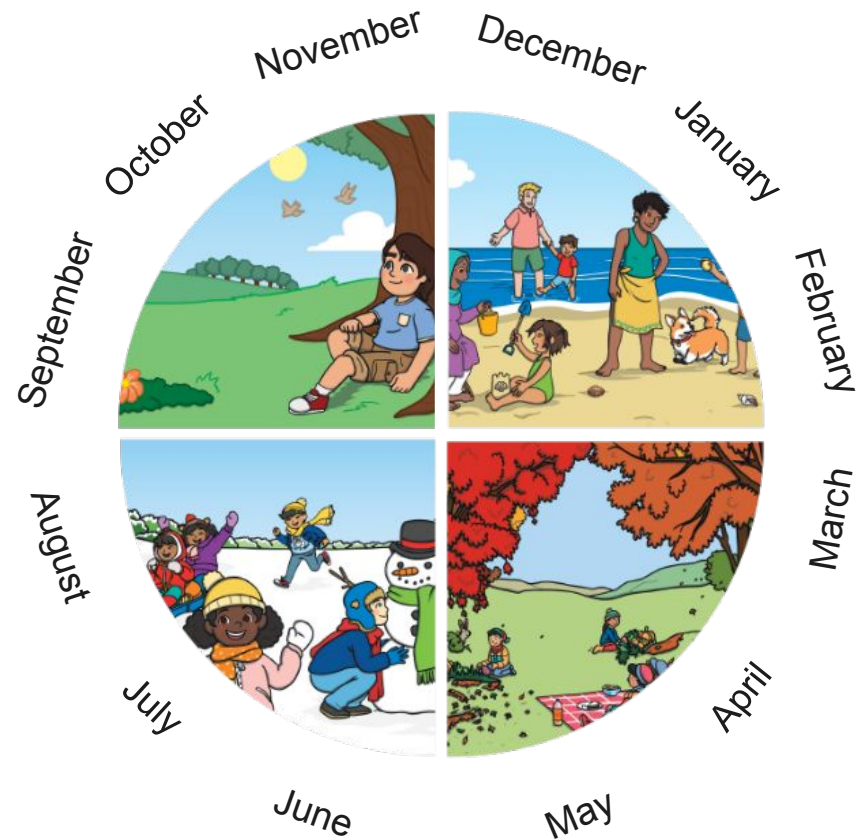

northern hemisphere

Places that are on or near the equator have high temperatures all year round.

southern hemisphere

# Spring around the World

In the southern hemisphere, in countries like Australia, spring is in September, October and November!

# What Did You Find Out about Spring?

Can you order the UK seasons?
