Location

- When my father was young he went to his local village school
- It was very small and it was located very far from his house
- My father was born in poor family so he went to his school on his foot
- Almost all students went to school on foot

Classrooms

- School was in a very old building, classrooms were dusty, stuffy and very small
- In winters there was very coldly there
- There was only one teacher for all students in this school.

Discipline

- Students sat in silence and tried to study as hard as it possible
- They didn't wear school uniform, because all families in the village were poor enough
