HELIOS CONFIGURATOR REMOVING 'HANGAR' 3D BACKGROUND

GROUPE RENAULT

HELIOS CONFIGURATOR

The **Hangar** background is no longer a background that meets the Renault's Visual identity standards for 3D Commerce.

- There will be no more follow-up and support on this background from now on.
- We are working this year on a brand new generation of 3D backgrounds

All countries on HELIOS must **disable** it manually by following the instructions in this presentation.

Until next generation background arrive the car must be displayed using default white area.
