

Jeopardy! Tutorial

This template is ready to use but since Jeopardy! is a quiz show, you can **change the questions and answers** of the template, in order to adapt the game to your topics.

Please **do not delete whole slides**, otherwise we can not guarantee a smooth game experience and problems may occur.

However, you can change texts, the music and colours. In the next slides we will give you a detailed explanation to learn how to play the game and adapt it to your ideas.

Have a lot of fun with our JEOPARDY! game!

Rules of Jeopardy!

To start the game, click on the **first Jeopardy! Slide** and start the presentation by clicking on the menu **Slide Show > From Current Slide**.

Now the intro with music starts playing and you only **must click one more time** to run the begin animation. When the second money board appears, the **first player can choose the category and money-** value by clicking on the field. (With the increasing amount of money, the difficulty of the questions also increases!)

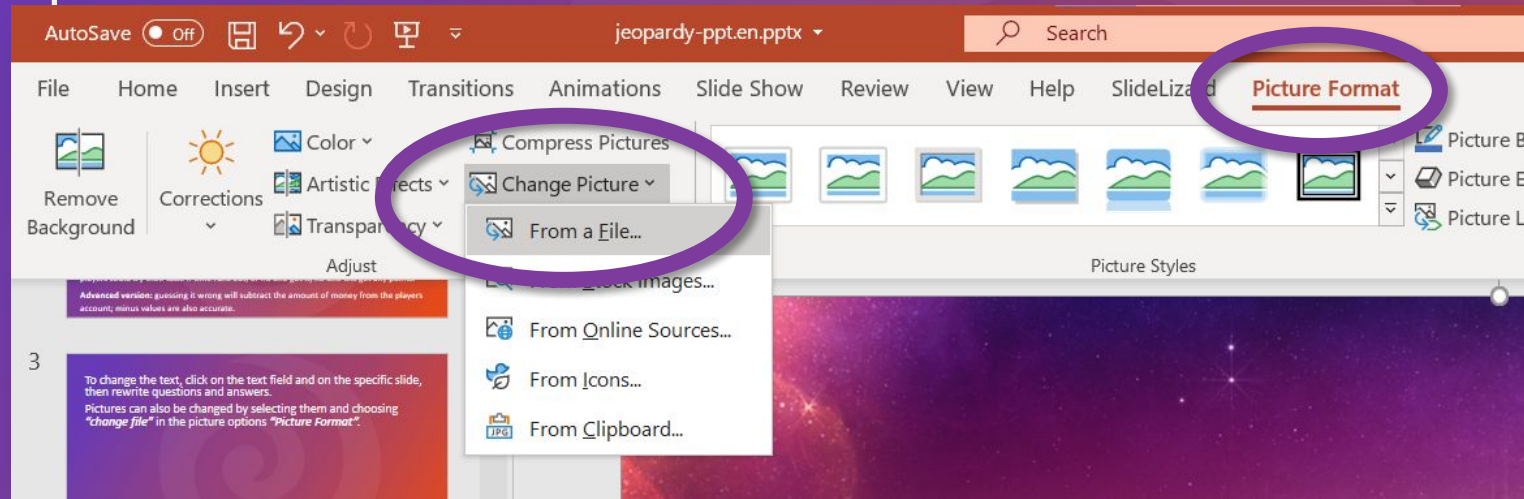

As soon the question appears, the players have **30 seconds** to think about it. (until music ends) When one person raises his arm (or shouts) he/ she can answer. Answers must be phrased as questions, unless it's said differently.

Right answer? Then the player gets the amount of money, the question is worth. Take a sheet and write down the value to the persons' name. If he guessed it **wrong**, the other players could try their luck. If time runs out, or no one got it, no one will get any points. The person with the highest amount of money, wins.

Advanced version: guessing it wrong will subtract the amount of money from the players account; negative values are also accurate.

To change the text, click on the text field on the specific slide, then rewrite questions and answers.

Pictures can also be changed by selecting them and choosing ***“From a File”*** in the picture options ***“Picture Format”***.

Some pictures are hidden behind other elements. In order to change them, move objects around and bring them to the front or back by right-clicking them and choosing the option.
