

MUSTANG TATTOO

PRO equipment

Our Passion

Over 10 years ago the company was set up because we believe that tattoo artists should focus on their talents, the art. Not the operation around them. That's our job. We deliver the products and even infrastructure to make their lives easy. We've made a start in Russia and now we are looking to new markets to continue our mission.

Company history and structure

Year 2008 □ 1st [Tattoo studio](#)
