**Travels often happen in our Family`s life. We travel together and separately.The brightest travels were in Thailand and Cambodia. Every time we bring souvenirs . They are reminding us interesting moments of our life and visited places. Magnets , Figurines, small vases and Music Tools are nice and unusual. When our dad travel alone , he brings us soft toys from visited countries. The Koala- from Australia, the Kiwi bird – from New Zealand, small camel – from Arabic countries. Now all we are at home. So, our souvenirs are refreshing our memories.**
