

Meeting Welcome

Kumar Vuppala

Director

We started HireXtra to be part of disruptive technologies where **corporate's & individuals** could save hours of work thus save millions \$£€ driven by AI / ML/ Big Data .

We hope you enjoy our association with you next few years and thanks for considering us.

Our Brands based on out-of-box business strategy & using latest technologies such as AI, ML, Bigdata to serve corporate community

Hiring Boss's or Talent Acquisition Executives today don't have the time to read lengthy profile's or resumes – they don't even have time to do cv mining or cv validation, or identify which skills in the profiles they really need of . At HireXtra, we liaise with 100's of recruitment agencies and then read 1000's of valid profiles using our AI algorithm (We called it "ASNA (Applicant Skill aNalysing Algorithm) AI .

All we do in-depth CV Mining , CV validation in every second then and present only summarize the best using Job Match-O-Meter and Candidate Compass.

We then using our AI Chat Bot to Qualify , Interview , Availability rounds.

Feedback From Others

WHAT PEOPLE ARE SAYING

Wow! I love this service we used for Testers !

Time to hire reduced significantly by about 40%. Multiple Agencies delivering results in time. Contingent workforce was readily available to join and work on the projects

My colleagues are so happy as they received Quality Profiles with in 4 hours . I introduced them to other TAG team, they thank me every week.

Two Of Our clients PayPal and ford Java Requirements are Fulfilled. Love to work with them and their business model and speed matches of ours !

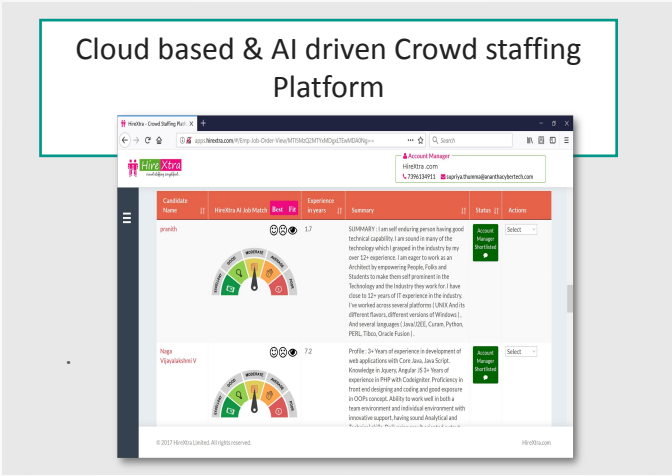

Had it not been profiles Intime s I don't think I would have acquired new client ...

Their presentation of profiles are out of this world!
