

The Eastern Orthodox

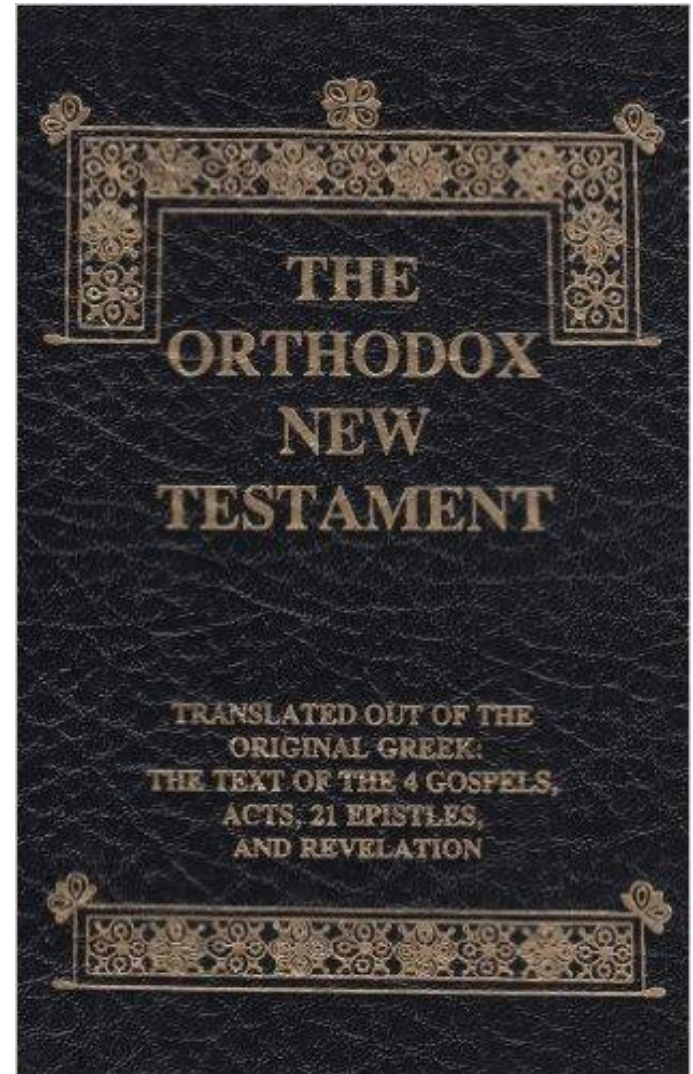

Made by Anna Tazova, 212 group

In 1054 there was a split between the Latin speaking church of the west and the Greek speaking churches of the east.

The Eastern Orthodox believe:

- Jesus is the Son of God;
- that God is triune;
- the Bible is God`s Word;
- receiving salvation through a process of faith works and partaking in the sacraments;
- no one should try to interpret the Bible apart from church tradition.

It is possible for a person to attend an Orthodox Church, hear about Jesus and become a Christian. Around 250 million people follow the Orthodox tradition.
