

Weather in Cyprus

- Burn out- выгорать
- Dry up- высыхать
- Scorching- палящий

- Cyprus is a popular tourist destination. The country is located on an island in the Mediterranean Sea. The climate is sunny and warm. There are beautiful sandy beaches.

- The temperature in winter does not drop below +18 degrees, sometimes it rains, and so much snow falls in the Troodos mountains

- Spring in Cyprus comes in February. Here it is the most picturesque time of the year. The weather in Cyprus in March and April is especially good to go there because there is + 23-27 degrees

- Summer begins in May and lasts until October. The weather in Cyprus in July and August is the hottest, the temperature often rises above +40 degrees. At this time of year, the nature of the island "dies": flowers burn out, rivers dry up, animals hide from the scorching sun.

- In autumn, the nature of Cyprus comes to life again. The average temperature in September-November is + 25-29 degrees. in September and October, the sea is still warm (+ 24 degrees). The first signs of golden autumn appear only at the end of December .
