

Closing the Bathroom Door

At school, many people go to the bathroom.

My classmates and teachers go to the bathroom at school.

I go to the bathroom at school.

My classmates and teachers close the door when they go to the bathroom.

NO ONE wants to see someone else go to the bathroom.

Teachers and my classmates like it when people close the bathroom door.

When I go to the bathroom, I can close the door.

It makes other people happy when I close the door.

I like making other people feel happy.
