

РОЙ БПЛА

ВИНОГРАДОВ Е. А.
СИДОРЕНКА Ю.

ПРОБЛЕМА

- Слепые зоны
- Куча проводки
- Сложность эксплуатации
- Трудности с сетями
- Устаревшее оборудование
- Плохая поддержка

ЦЕЛЕВАЯ АУДИТОРИЯ

- Частные предприятия
- Склады
- Заводы
- Стройки

ЦЕННОСТЬ ПРЕДЛОЖЕНИЯ

- Ограничение слепых зон
- Повышение автономности

The image features a solid purple background with white, stylized circuit board traces and nodes. These elements are positioned in the corners: top-left, top-right, bottom-left, and bottom-right. The word "ПРОДУКТ" is centered in the upper-left quadrant in a white, sans-serif font.

ПРОДУКТ

ОГРАНИЧЕНИЯ ПОЛЕТНОЙ ЗОНЫ

The screenshot displays the Mission Planner interface. On the left, the 'GeoFence' tab is selected in the 'Flight Modes' sidebar. The main panel shows the following configuration:

- Enable: Enable
- Type: Altitude and Circle
- Action: RTL or Land
- Max Alt[m]: 100
- Max Radius[m]: 300
- RTL Altitude[m]: 15

The central 3D visualization shows an aerial view of a circular field with a blue wireframe sphere representing the flight zone. Annotations include:

- A red box: "If we cross the Circle Radius we RTL" with an arrow pointing to the sphere's edge.
- A white box: "Adjustable Max Alt" with a bracket indicating the vertical height of the sphere.
- A white box: "Adjustable radius" with an arrow pointing to the sphere's base.
- A white box: "100m" with an arrow indicating a distance from the center to the edge.
- A red box: "If we go 100m outside of radius we LAND" with an arrow pointing to the ground outside the sphere's base.

КОНКУРЕНТЫ

- Охранные компании
- Коптер экспресс
- БЛА ZALA

The image features a dark purple gradient background. In the corners, there are white, stylized circuit board traces and nodes. The top-left and bottom-left corners have more complex, dense patterns of lines and circles. The top-right and bottom-right corners have simpler, more sparse patterns. The word 'РЫНОК' is centered in the upper left quadrant.
