A photograph of three Amanita muscaria mushrooms growing in a forest. The mushrooms have bright red, convex caps covered in numerous white, irregular spots. Their stems are thick and white. The forest floor is covered with dry pine needles, twigs, and some green moss or small plants. The lighting is natural, highlighting the texture of the mushroom caps and the surrounding forest debris.

**МУХОМОР**

A black frog is perched on the top of a large, vibrant red mushroom. The mushroom has a smooth, slightly glistening cap and a thick, white stem. The background is filled with green grass and other forest vegetation, creating a natural, outdoor setting. The lighting is bright, highlighting the textures of the frog's skin and the mushroom's cap.
