

COUNTRY MONKEYS

Чурилов Николай 10-3

BASIC INFORMATION

- This is a protected area in South Africa, east of city Plettenberg-Bey
- It was created in 1998 by Tony Blignaut
- More than 28 species monkeys are living there and more than half of them considered endangered
- Most monkeys get here from captivity
- Here visitors can go on a forest on a suspension and see monkeys in there natural habitat

THE END
