Delete search component on Helios

DELETE SEARCH BAR IN GLOBAL NAVIGATION

In the pop-up window click on yes to confirm the suppression

Then publish site admin to roll out on live site

Congratulations, you just removed the search component from the menu ! But it is not finished, go to next slide please.

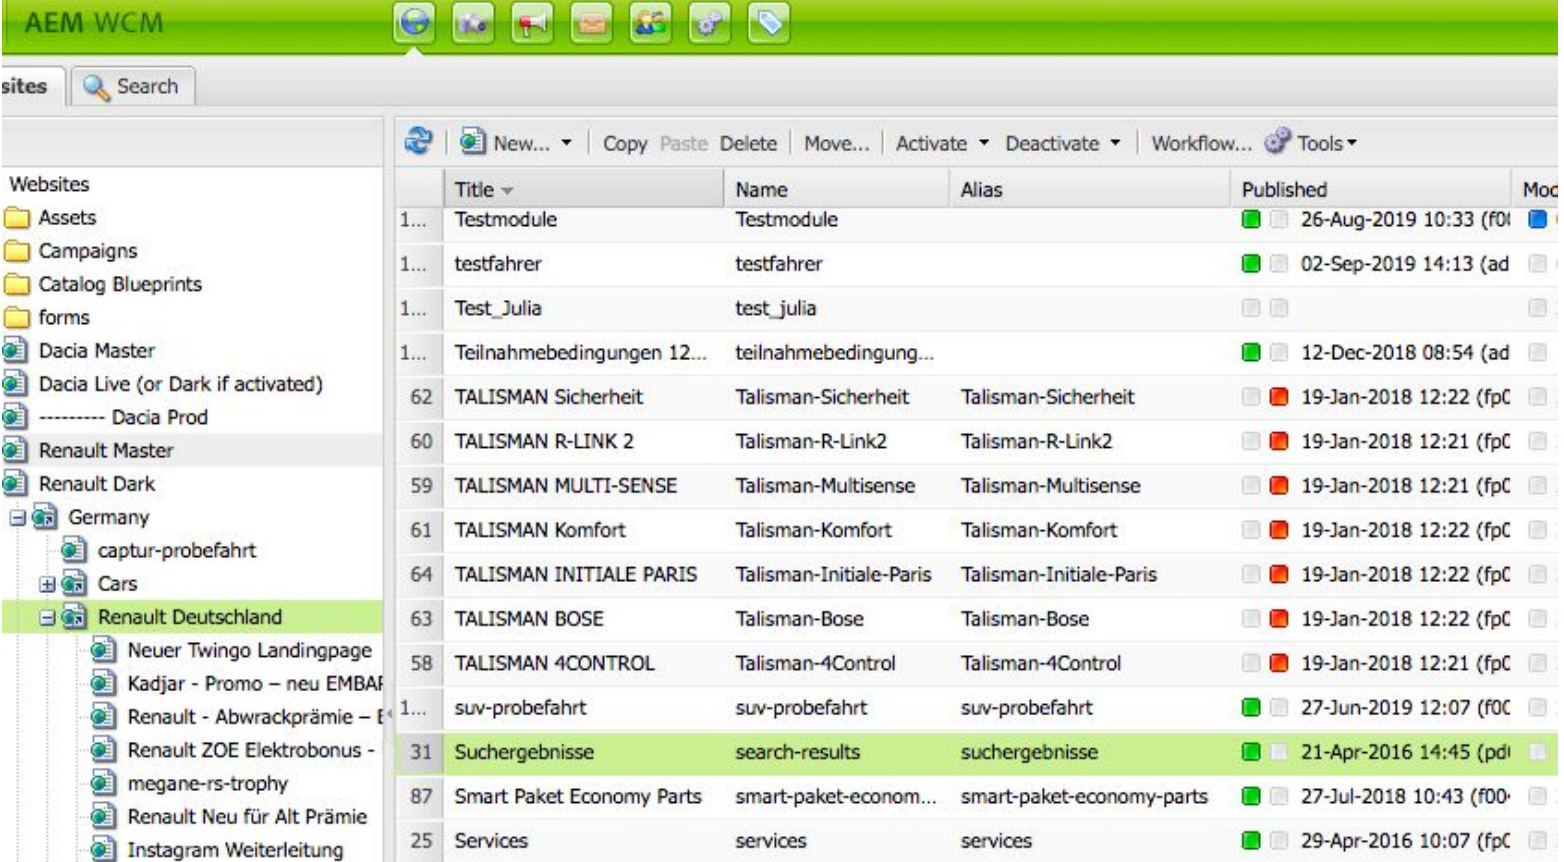

Delete search component on Helios

DELETE SEARCH PAGE FROM THE SITE

The hardest step in this phase is to find your search page in the AEM tree structure. Check the URL of the page on your site might help.

For example, DE search page has the following URL : <https://www.renault.de/suchergebnisse.html> So the alias of the page is « Suchergebnisse »

In AEM we can find the right page :

The screenshot shows the AEM WCM interface. On the left, a tree view shows the site structure with 'Renault Deutschland' expanded. In the main area, a table lists various pages. The 'Suchergebnisse' page is highlighted in green.

DELETE SEARCH PAGE FROM THE SITE

To roll-out the deactivation of the page on live site, do not forget to refresh the pages :

The screenshot shows the AEM WCM interface. The left sidebar shows a tree view of websites, with 'Renault Deutschland' selected. The main area displays a table of pages. A red box highlights the 'Refresh Page List' icon in the toolbar, with a tooltip that says 'Refresh Page List Refreshes the list of pages'. The table lists various pages, including 'Suchergebnisse' (search-results) which is highlighted in green.
