

Air Purifiers and Odor Removers

PINK OF NATURE

NATURAL SCENTS

Our air purifiers are non-toxic and 100% natural. They utilize a natural way to eliminate rather than mask polluted air. It is different from the way traditional air fresheners and air purifiers work.

Essential Oils 100% Pure

Essential oils are strong and potent for getting rid of airborne contaminants and pollutants as well as a disinfectant.

The image shows a product label for 'Pink of Nature' essential oils. The label is black with white text. At the top, it says 'PURE & NATURAL' and 'PURE ET NATUREL'. In the center, there is a large white box containing a paragraph of text. Below the box, it says '100 ml' and features a red maple leaf logo. At the bottom, the website 'WWW.PINKOFNATURE.COM' is printed. The background of the image is a close-up of lemons and lemon slices on a wooden surface.

PURE & NATURAL
PURE ET NATUREL

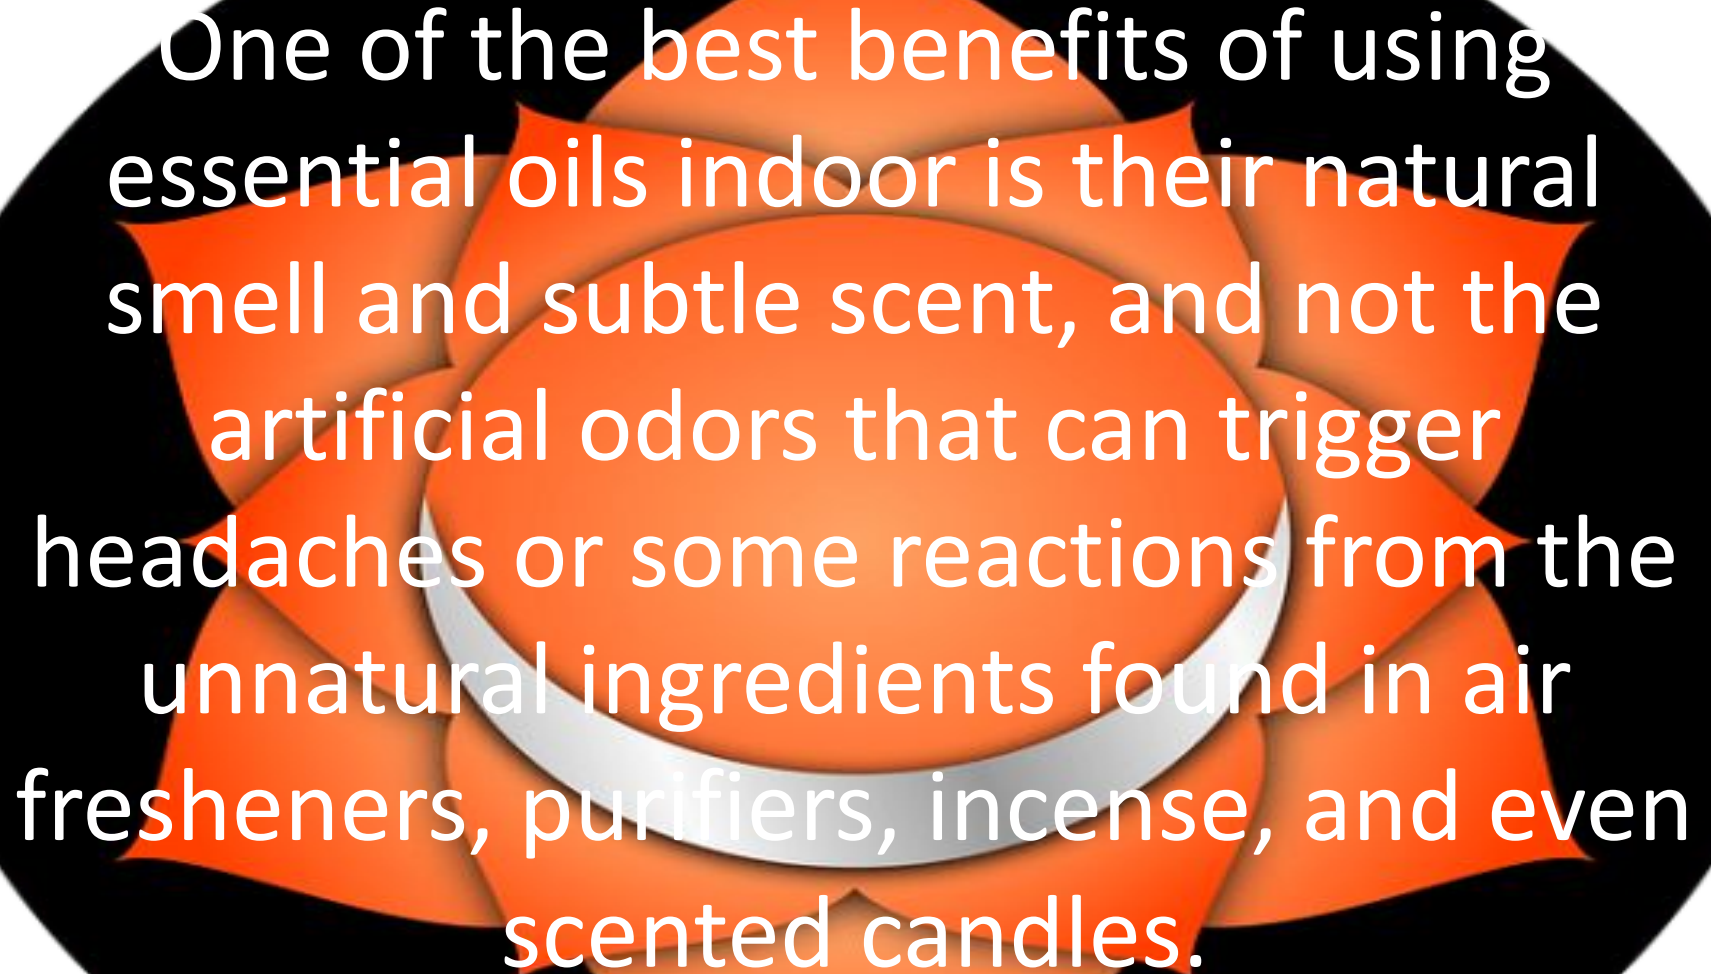

Many essential oils are antimicrobial, antifungal and antibacterial and they offer the best and most responsible alternative to the toxic, artificial, chemically charged products flooding the market.

One of the best benefits of using essential oils indoor is their natural smell and subtle scent, and not the artificial odors that can trigger headaches or some reactions from the unnatural ingredients found in air fresheners, purifiers, incense, and even scented candles.
