

**EVERY LITTLE
MOUSE**

Every little **sheep** wants to be with **sheep**,
Every little **mouse** wants to be with **mice**,
Every little **fish** wants to be with **fish**,
Every little **louse** wants to be with **lice**

When you're all alone singing a lonely song

Looking for just somebody

come and sing along

When you're all alone

All you have to do

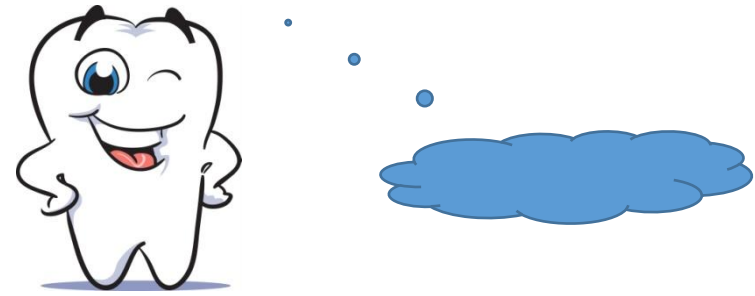

Is just to find somebody

just like you.

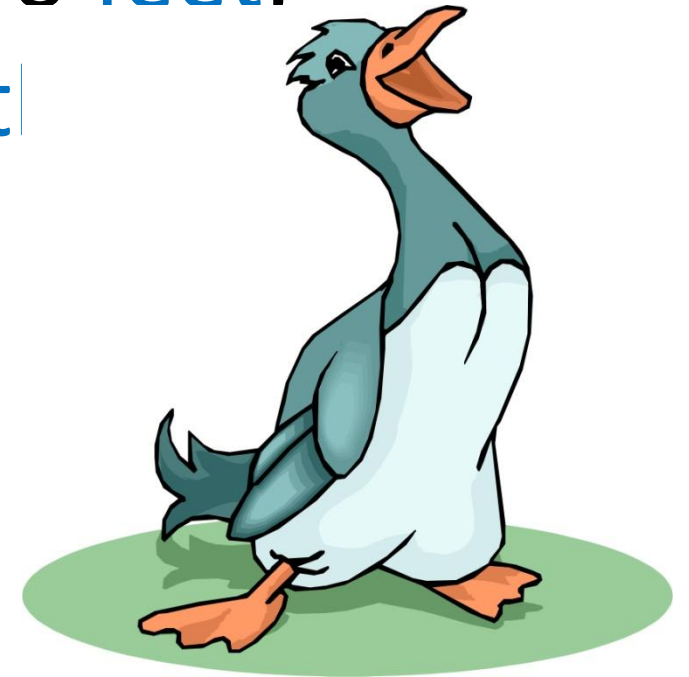

Another lonely creature

just like you.

Every little deer wants to be with deer,
Every little goose wants to be with geese,
I don't have one foot but I have two feet.
I don't have one tooth but 32 teet|

When you're all alone singing a lonely song

Looking for just somebody come
and sing along

When you're all alone

All you have to do

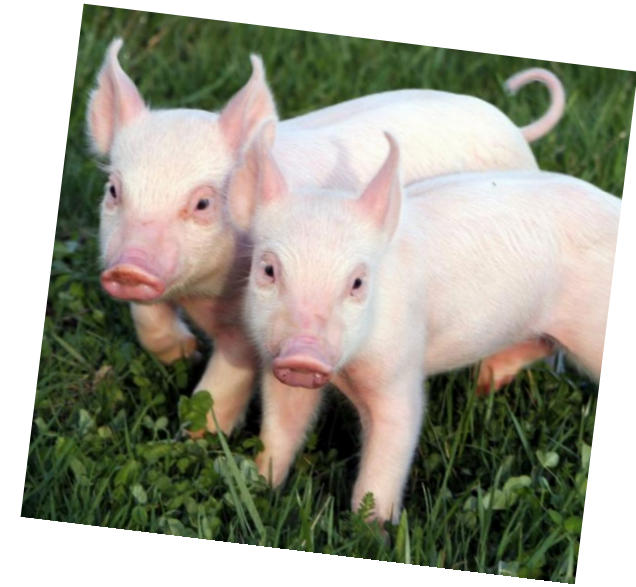

Is just to find somebody just like you.

Another lonely creature just like you.

Every little **ox** wants to be
with **oxen**,
Every little **swine** wants to
be with **swine**,

Every little **bison**
wants to be with
bison,
And only among
moose a **moose** can
feel just fine.

When you're all alone singing a lonely song
Looking for just somebody come and sing
along

When you're all alone

All you have to

Is just to find somebody
just like you.

Another lonely creature just like
you.

But not every **man** wants to be
with **men**,
And not every **woman** wants
to be with **women**,

If you find your person among all the people,
You might have a **child** and possibly some **children**.

When you're all alone singing a lonely song
Looking for just somebody come and sing
along

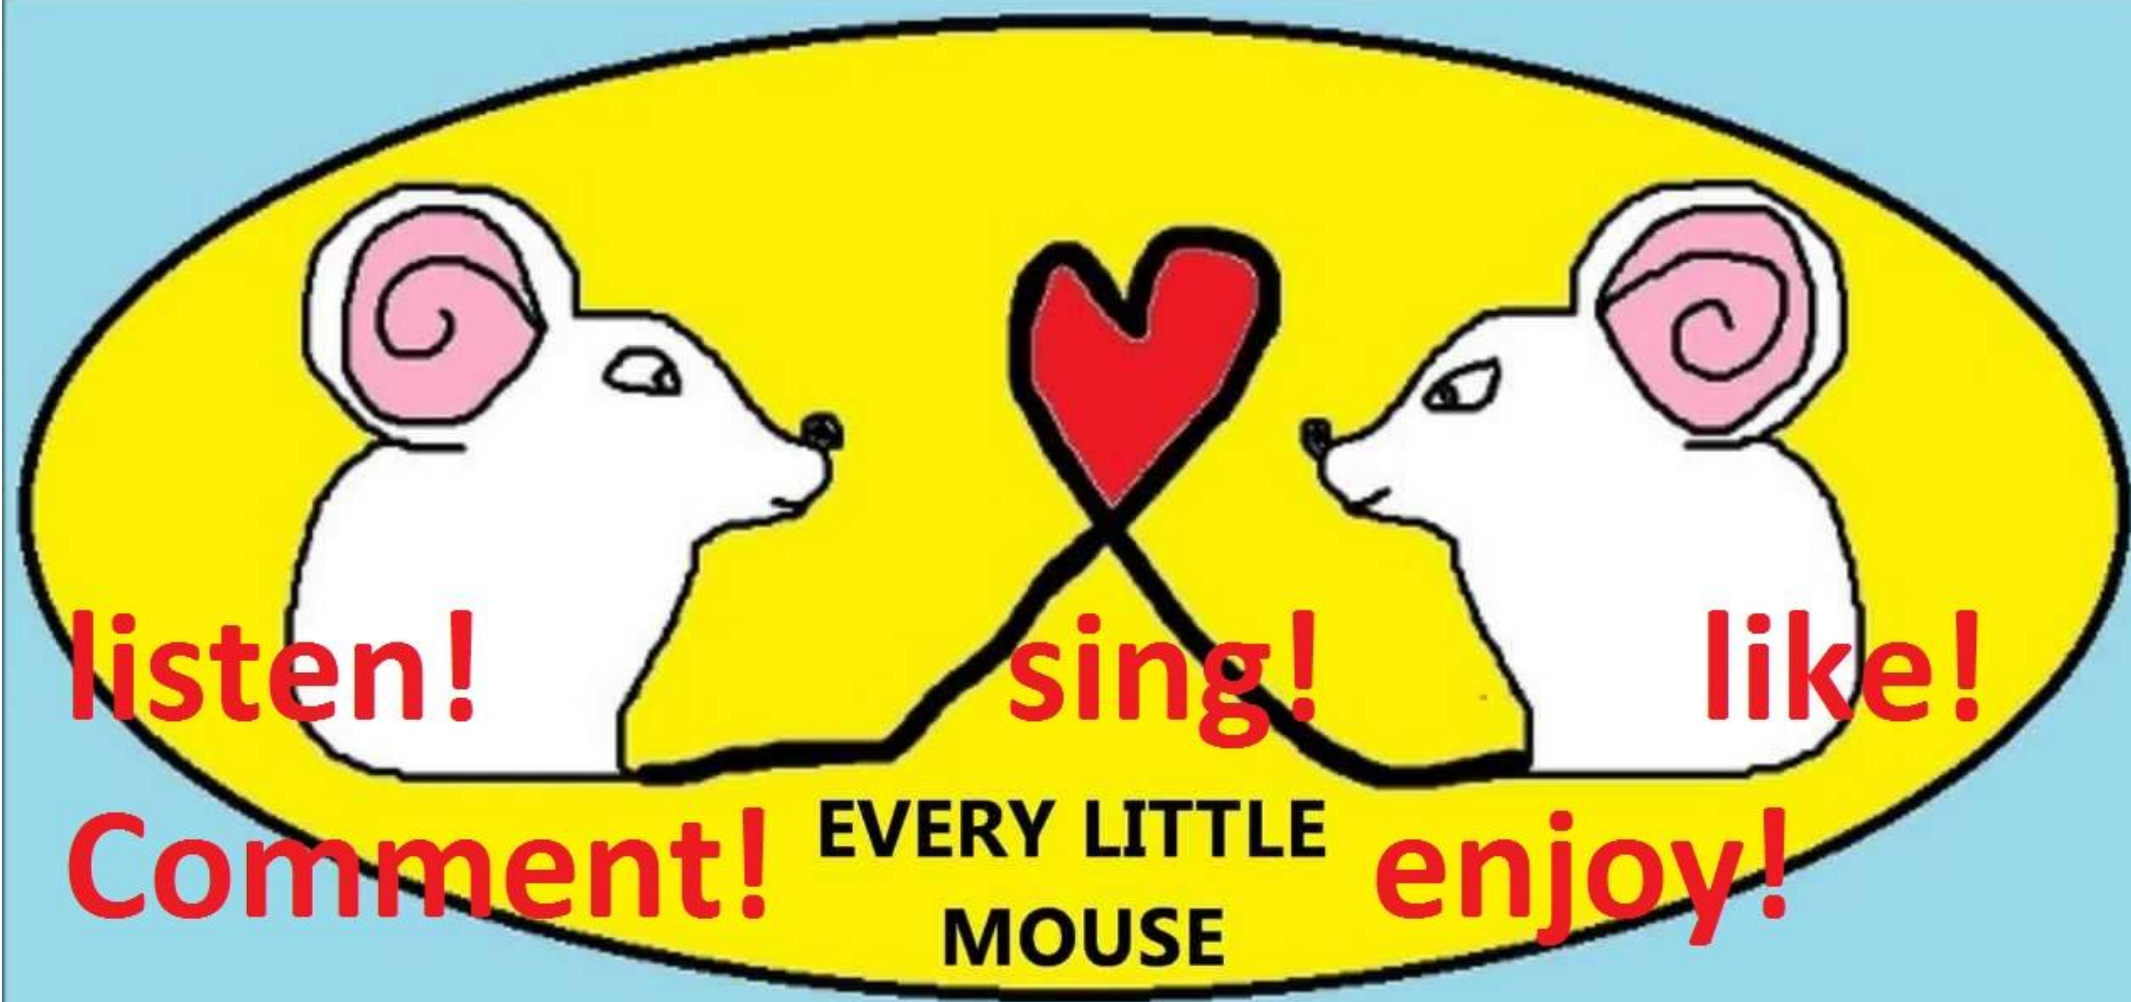

When you're all alone

All you have to do

Is just to find somebody
just like you.

Another lonely creature just like
you. Another lonely creature to like
you.
