Mentalist (Psychological) View

I.A. Baudouin de Courtenay, L.V. Shcherba, E.D. Sapir, A. Sommerfelt, N. Chomsky, M. Tatham

- Phoneme – an ideal mental image
- Exist in mind but not in reality
- Speech sounds (allophones) are an imperfect and varying realization of a phoneme

De Saussure's Theory

- A phoneme is defined by its features which differ its acoustic image from other phonemes

Comprising of aspects of a phoneme
