Odessa architecture

Southern Palmira, the Black Sea Babylon, Little Paris, Capital of the South are the epithets which refer to Odessa. The materials of high-quality have been brought to Odessa by the sea. Architects from Europe realized the dreams in projects of building of the city. For this reason, set of the unique Palaces having its history are not less interesting, than histories of their authors' lives.

This giant stairway consisting of 192 steps links the city centre to the seaport. The name 'Potemkin' became official only after the war in the 50-s. Prior to that, the official name was Primorskiy stairs, or "Maritime stairs"
