В английском языке имеется только один способ выражения страдательного залога, в русском языке существует три способа его передачи:

а) при помощи глагола *быть* и краткой формы причастия страдательного залога. (Этот способ аналогичен способу выражения страдательного залога в английском языке)

б) глаголами, оканчивающимися на -ся: *дом строится, дом строился, дом будет строиться;*

в) неопределенно-личным оборотом с глаголом в действительном залоге в 3-м лице множественного числа: *дом строят, дом строили, дом будут строить.*

Иногда английский страдательный оборот можно перевести двумя или даже всеми тремя способами в зависимости от соответствующего русского глагола и контекста:
