- Why do cats purr? Humans tend to think that purring is a sign of happiness in a cat, but there are other reasons why our pets produce these particular sounds. Purring is a habit that develops very early in a cat's life. The most usual time for purring is in company. It can be a sign of social pleasure. Moreover, it can mean that the cat is asking to be fed or stroked.
- Strangely, vets also report that cats will purr when they are in great pain or even before death. It is not good to show weakness as this could encourage larger animals to eat you. The purr may just mean: «Everything's fine, I'm on top of the world. Nothing to see here, go away please».
