The problem: what we should do with these unnecessary things?

Possible solutions:

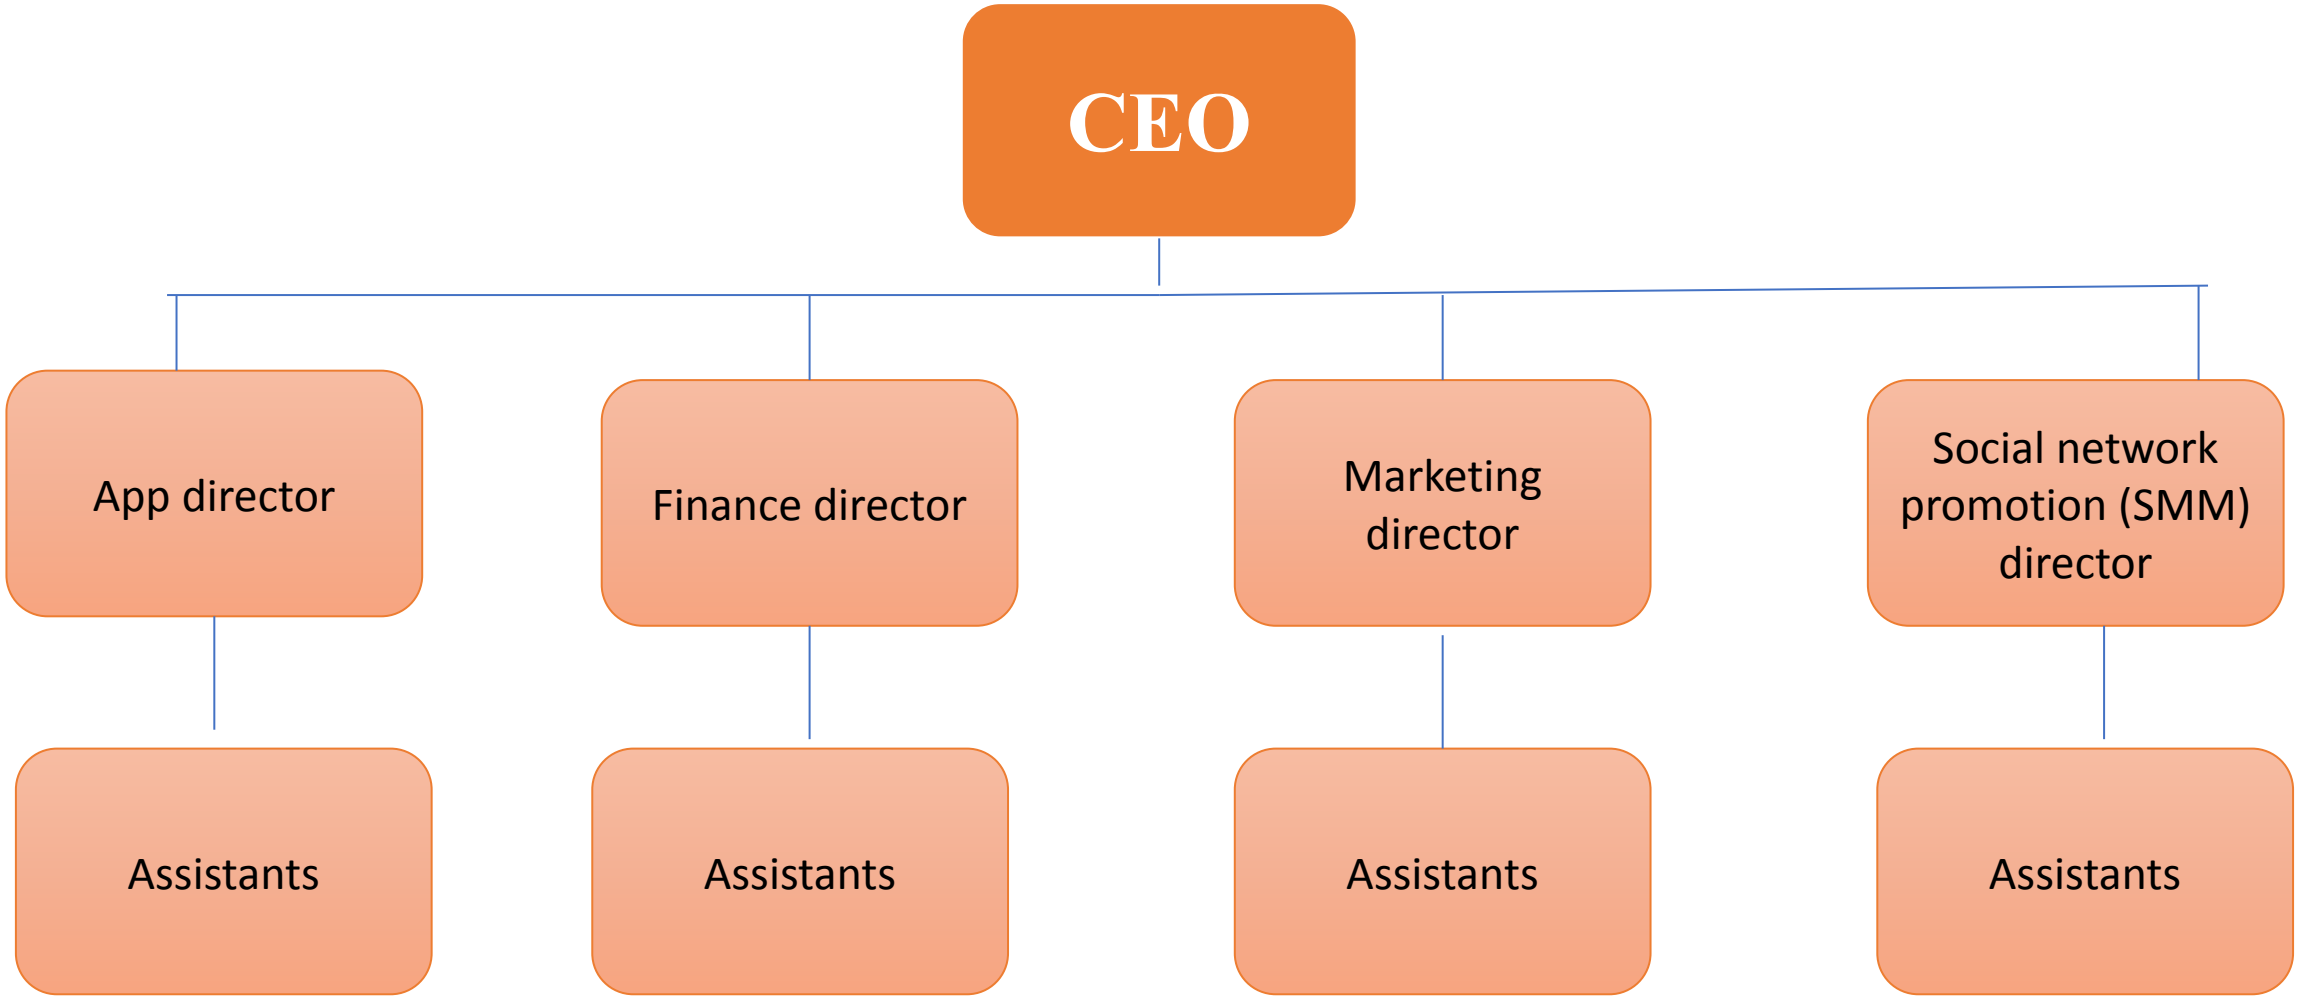
- To throw these things away
- To sell them

Possible consequences:

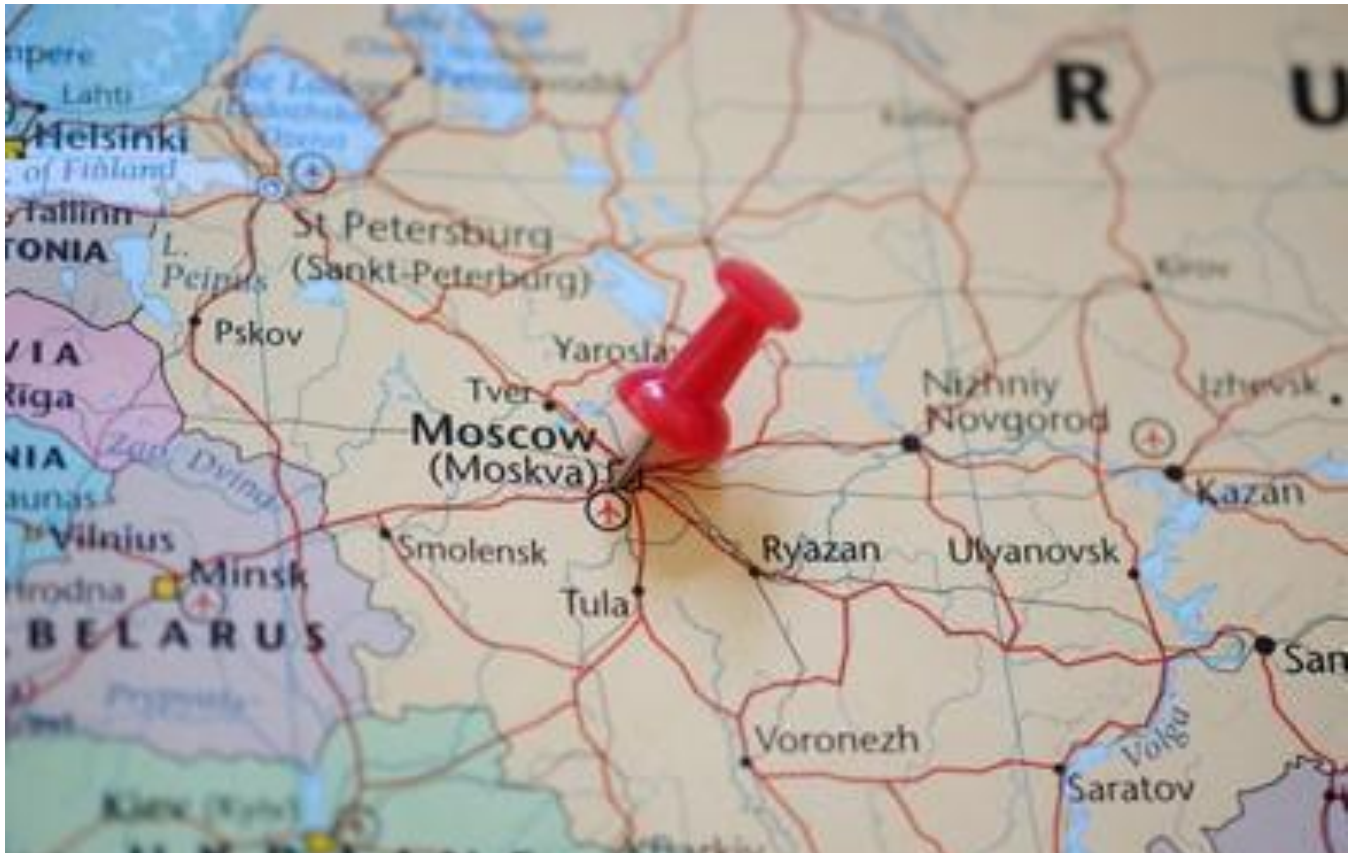
- Environmental pollution

My idea: to create an app that will help people to rent or rent out various things

Company structure



The company “ReUse” is headquarted in Moscow, Russia.



At the beginning of 2021:

- Market share - 0,6%
- Net profit - 2 million rubles
- The main competitors: “Avito” and “Youla”.

Our app

01

Download the app

02

Sign on

03

Post a photo of the thing you want to rent out

04

Write about this thing and set a rent price.

05

A renter pays the cost

06

Send the thing to the renter

Our app gives insurance

Our app gives personal data of a renter

You can always see where your thing is

Our team

No strict dress-code

Hours of work: from 9 a.m. to 6 p.m.

Comfortable office with all necessary equipment and facilities

01 **Use “ReUse”**

02 **Be environmental-friendly**

03 **Save your money**

04 **Make a profit**

Thank you for your listening!
