

CHALLENGES AND GAPS IN GENE & CELL THERAPY ASSESSMENT AND REIMBURSEMENT PATHWAY

The **gene therapy pathway** for patient access is quite intricate and involves challenges that face numerous stakeholders. **Gaps and challenges** include ethics, funding models, equity in access, long term data, efficacy and safety. It is paramount to address these challenges in a way that will be sustainable for the health system but also balance time to access for patients who would benefit from such novel therapies. With hundreds of these therapies in the pipeline, a structured assessment, negotiation and funding system must be developed and put into place to appropriately accommodate these therapies.
