By appearance

There are many races in the world, each has its own characteristics, from skin color to body features. Scientists believe that there are four.

Unfortunately for many people, differences in appearance are a worthy reason for a bad attitude.

Cultural features

Each country has the largest number of races, in this regard, each race has a predominant culture. Most people are neutral to other people's customs, but there are also bad people.

Self-love as a way to fight

Regardless of race, no one has the right to condemn you, in principle, no one has the right to condemn you for who you are, because you are unique. So protect yourself in cases of discrimination, get strength out of self-love.

My friend

I have an African-American friend who lives in Tula and unfortunately faced discrimination as a child. Peers did not want to communicate with little boys, and teachers were biased. But he has grown strong and is ready to stand up for himself.

Thanks for your
attention
