

«The stages of the interior-design project of the canteen in BCCAD»

Presentation on the working practice

The project is completed by students of the gr. D-45:

Штокалова Елена
Заблоцкая Дарья
Лойко Сергей
Ташкыран Зэхра

Also: Ким Диана, Громова София, Тимофеева Алёна и Таиров Ислям

Getting to know the customer

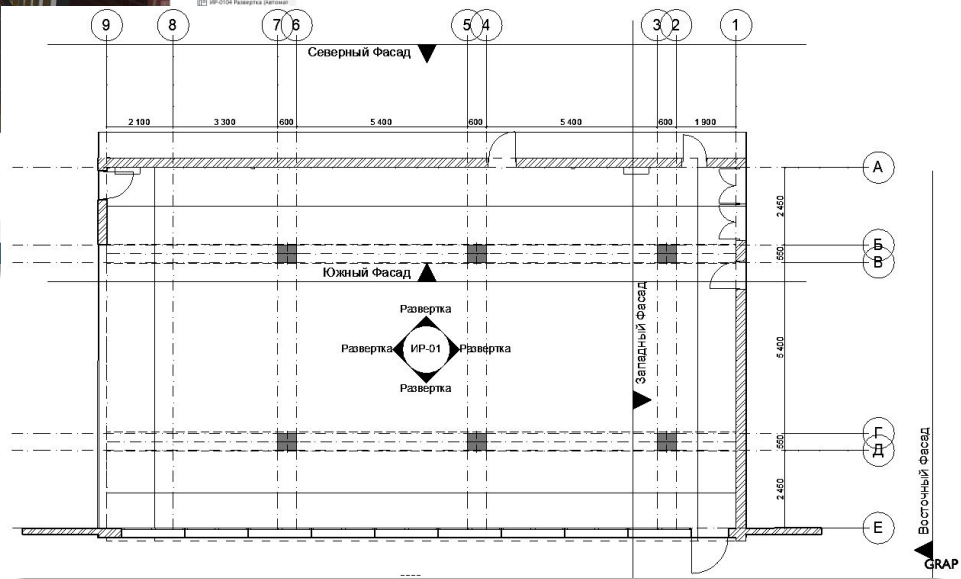

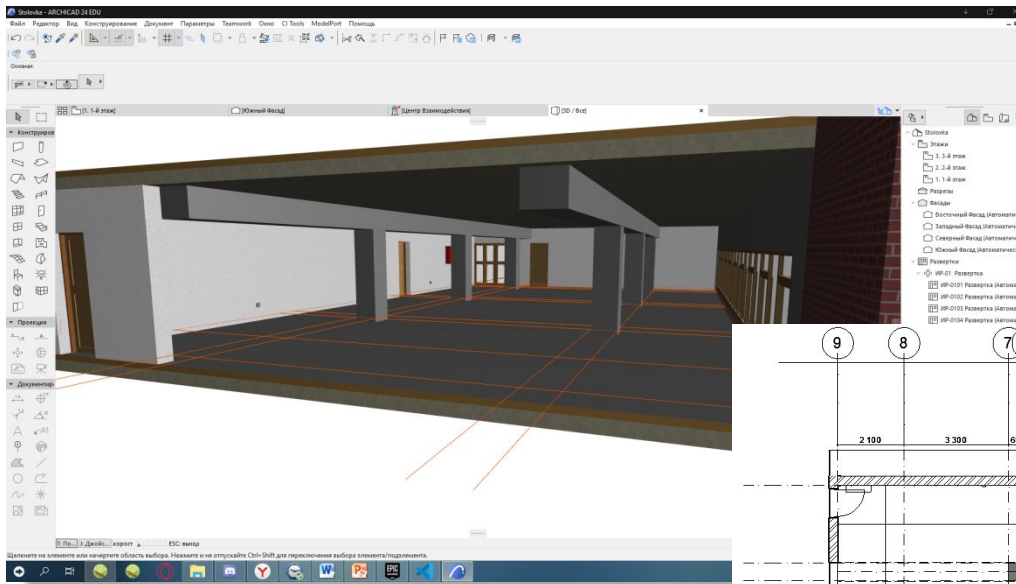

It's impossible to imagine the implementation of a design project without first meeting with the customer and discussing ideas, wishes and all sorts of suggestions.

The concept

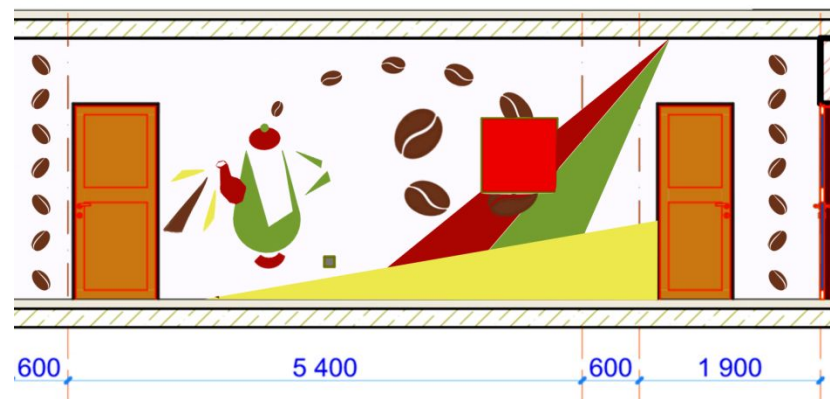

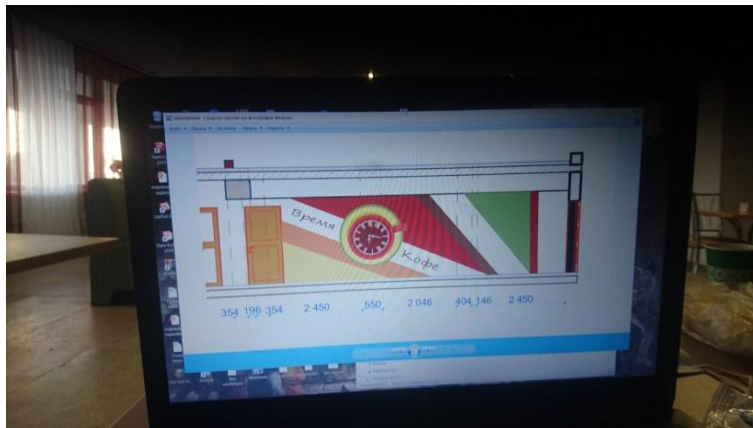

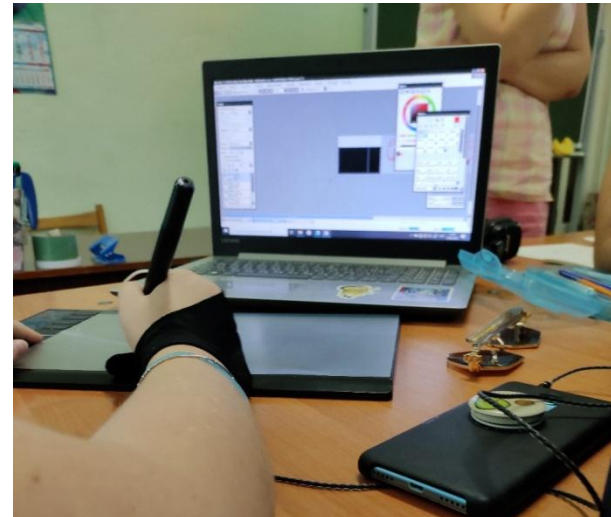

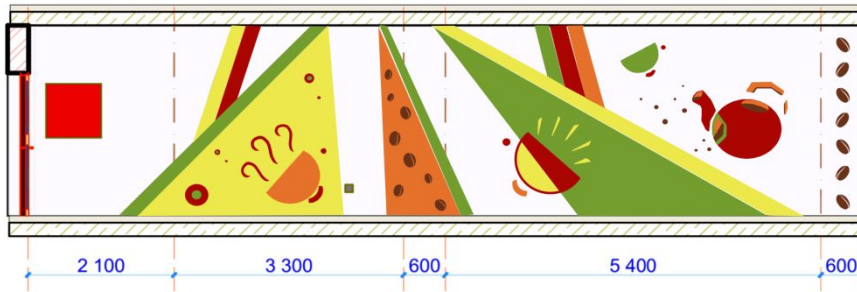

Measurements of the working walls, making the plan of the canteen in ArchiCAD

Interior of the canteen “before”

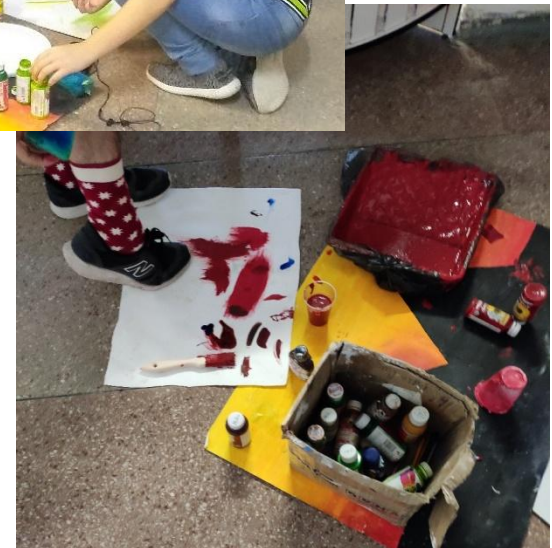

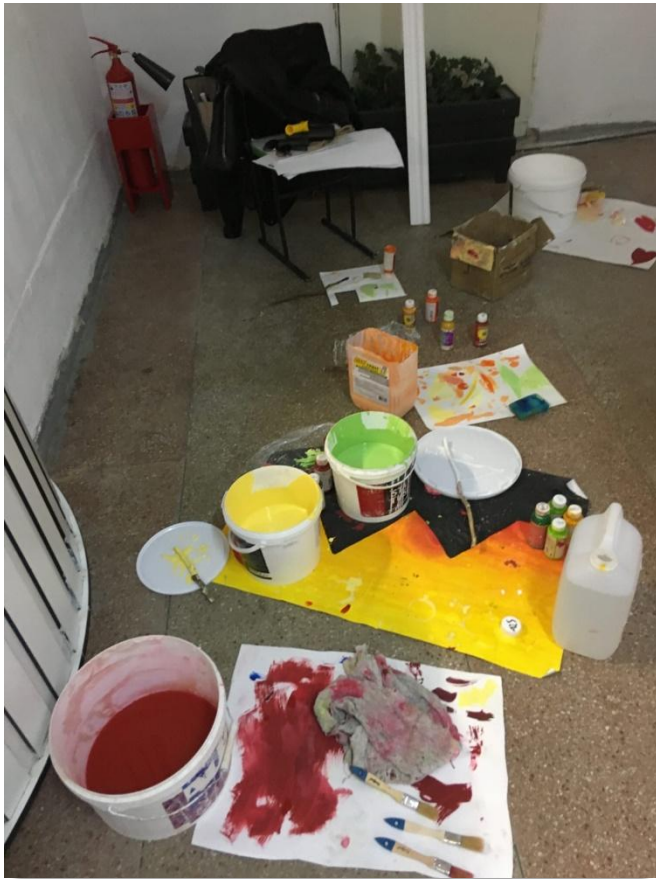

Sketching

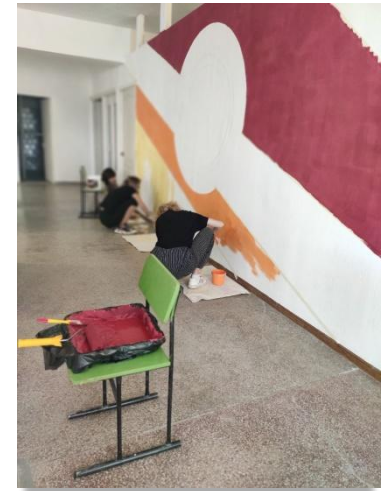

Priming the walls; sketching on the wall

Materials and dilution of paints

Working on the large parts of the painting

Working on the small parts of the painting

Painting the baseboards

Completion of the work

Accent wall " Coffee time"

Thank you
for your
attention!
