

Swat-an-Insect

To Play: Give students fly swatters, play slide show. Click to the first letter slide, every 15 seconds the uppercase letter on the screen will change. When students see the letter they use the fly swatter to swat the lowercase letter on their recording sheet.

The Fly Swatters:

I found these super cute mini fly swatters you can make with a tongue depressor and plastic canvas online.

However, after I made this game I couldn't wait to use it with the students until I got some plastic canvas at the craft store, so I settled for a tongue depressor with a square piece of construction paper taped on the top. It worked out perfectly!

Swat-an-Insect

Included in this download are 2 versions of the recording sheet. I made this game for students to match upper and lowercase letters, but I have included an uppercase version for students that still may be working on this skill. You can use both versions at the same time with your students, which makes it a great way to differentiate!

To create, print both pages and tape together.
