

A close-up photograph of a vibrant green leaf hanging from a branch, with a single drop of water falling from its tip into a pool of water below. The impact of the drop has created a series of concentric ripples that spread outwards. The background is a soft, out-of-focus green, suggesting a natural setting. The word "Quiz" is superimposed in a large, bold, black font across the center of the image.

Quiz

A close-up photograph of a green leaf hanging over a body of water. A single drop of water is falling from the tip of the leaf, creating a series of concentric ripples on the water's surface. The background is a soft, out-of-focus green.

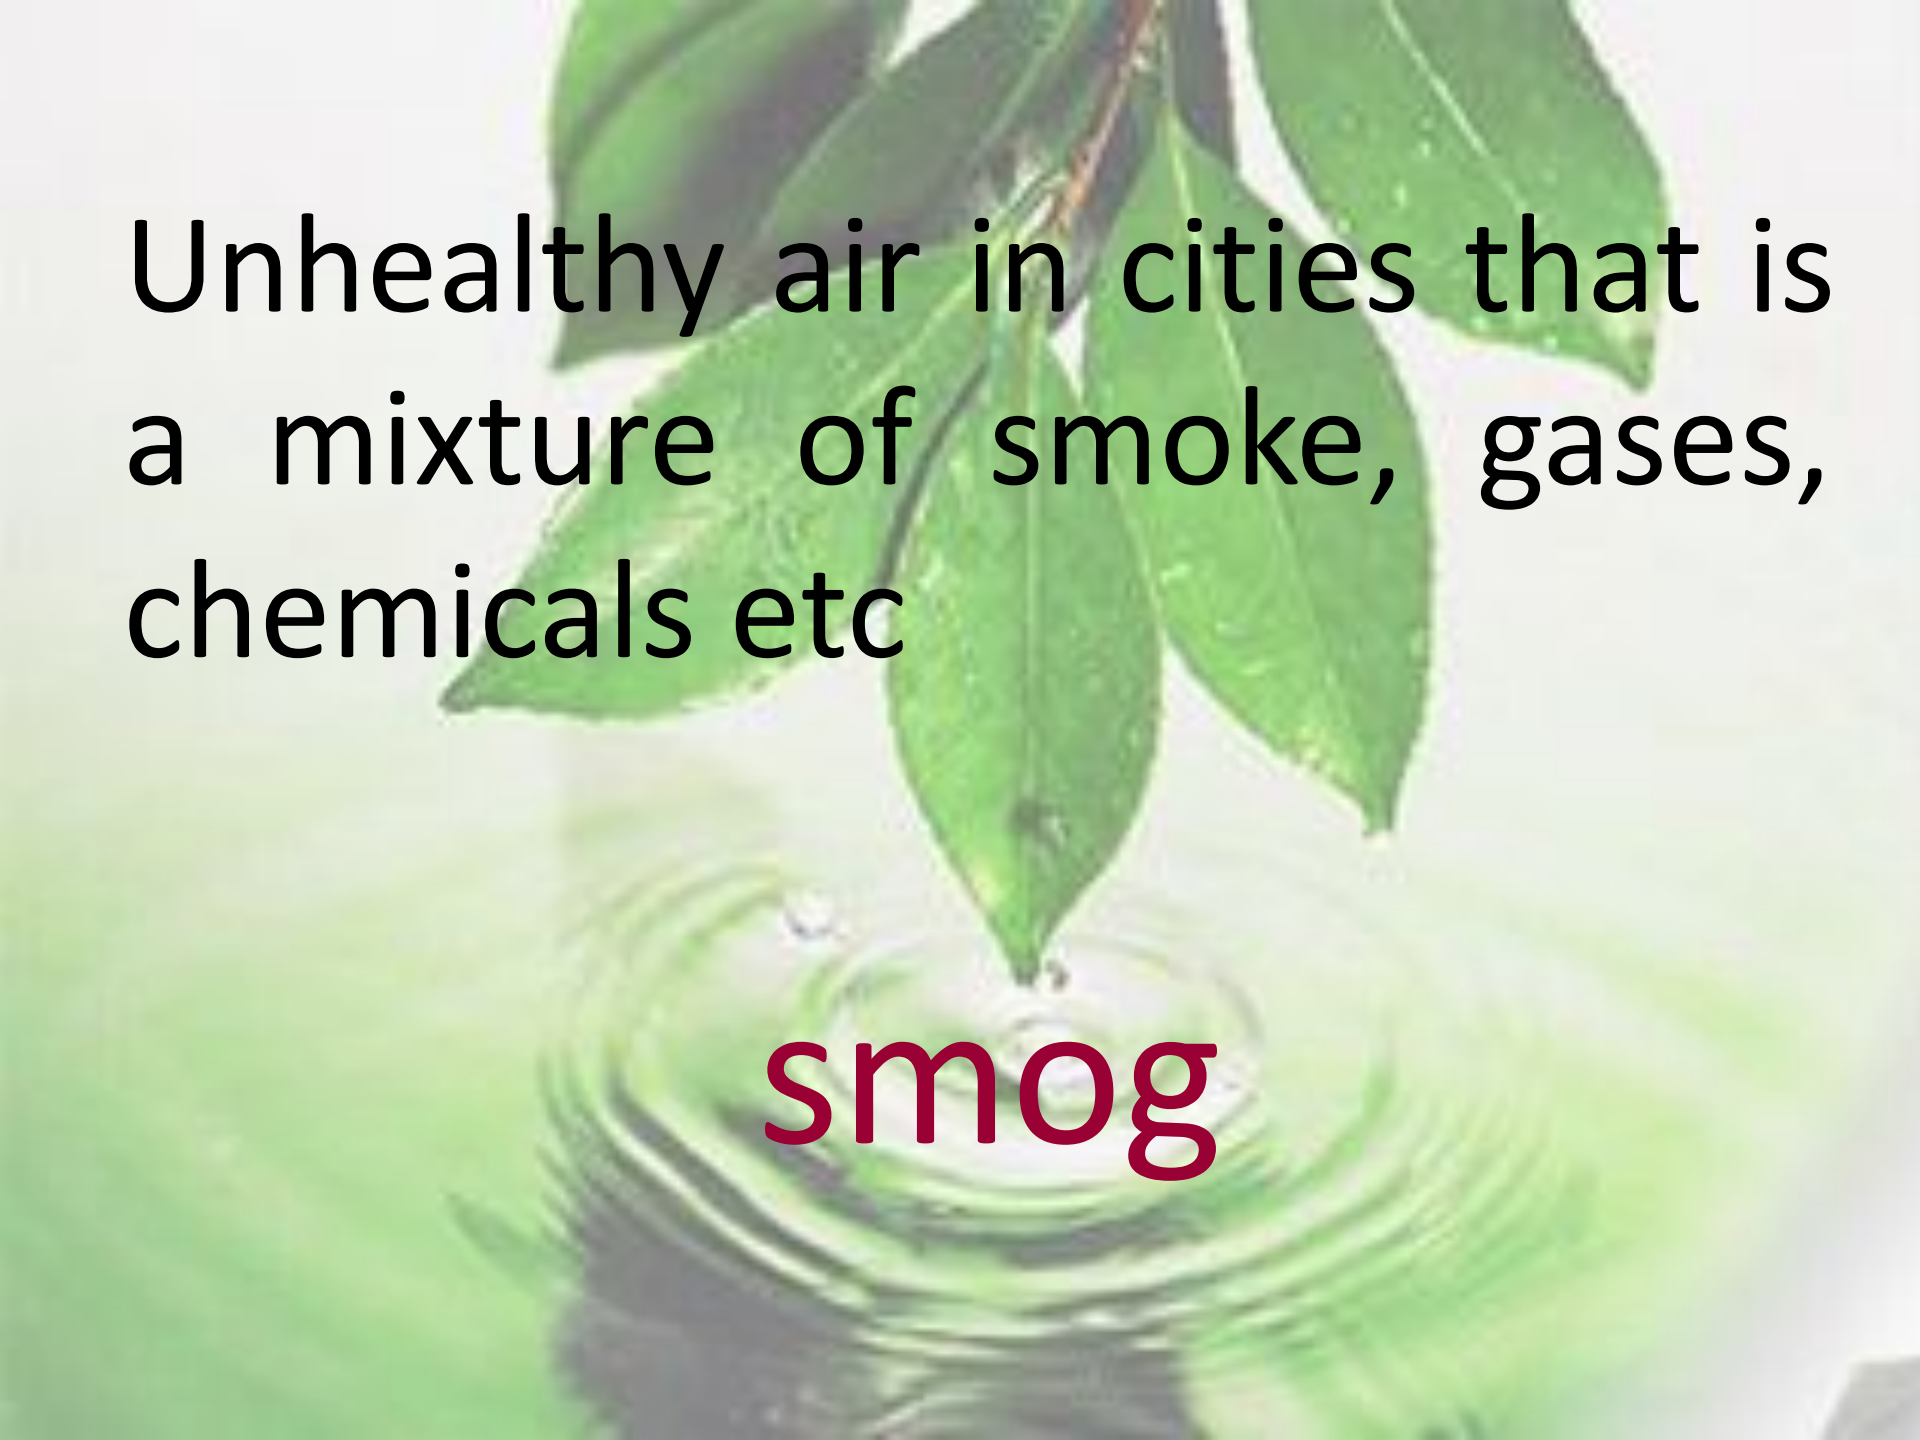

The relationship between
plants, animals, people, and
the environment, or the
study of this

ecology

A close-up photograph of a vibrant green leaf hanging over a body of water. A single drop of liquid is captured mid-fall from the leaf's tip, just above a series of concentric ripples on the water's surface. The background is a soft, out-of-focus green, suggesting a natural, outdoor setting. The overall image conveys a sense of environmental purity and the delicate balance of nature.

Harmful chemicals and
waste, and the damage they
cause to the environment

pollution

A close-up photograph of a vibrant green leaf hanging from a branch. A single drop of water is captured mid-fall, just above a pool of water. The impact of the drop has created a series of concentric ripples that spread outwards. The background is a soft, out-of-focus green, suggesting a natural setting. The overall image has a clean, fresh aesthetic with a focus on natural elements.

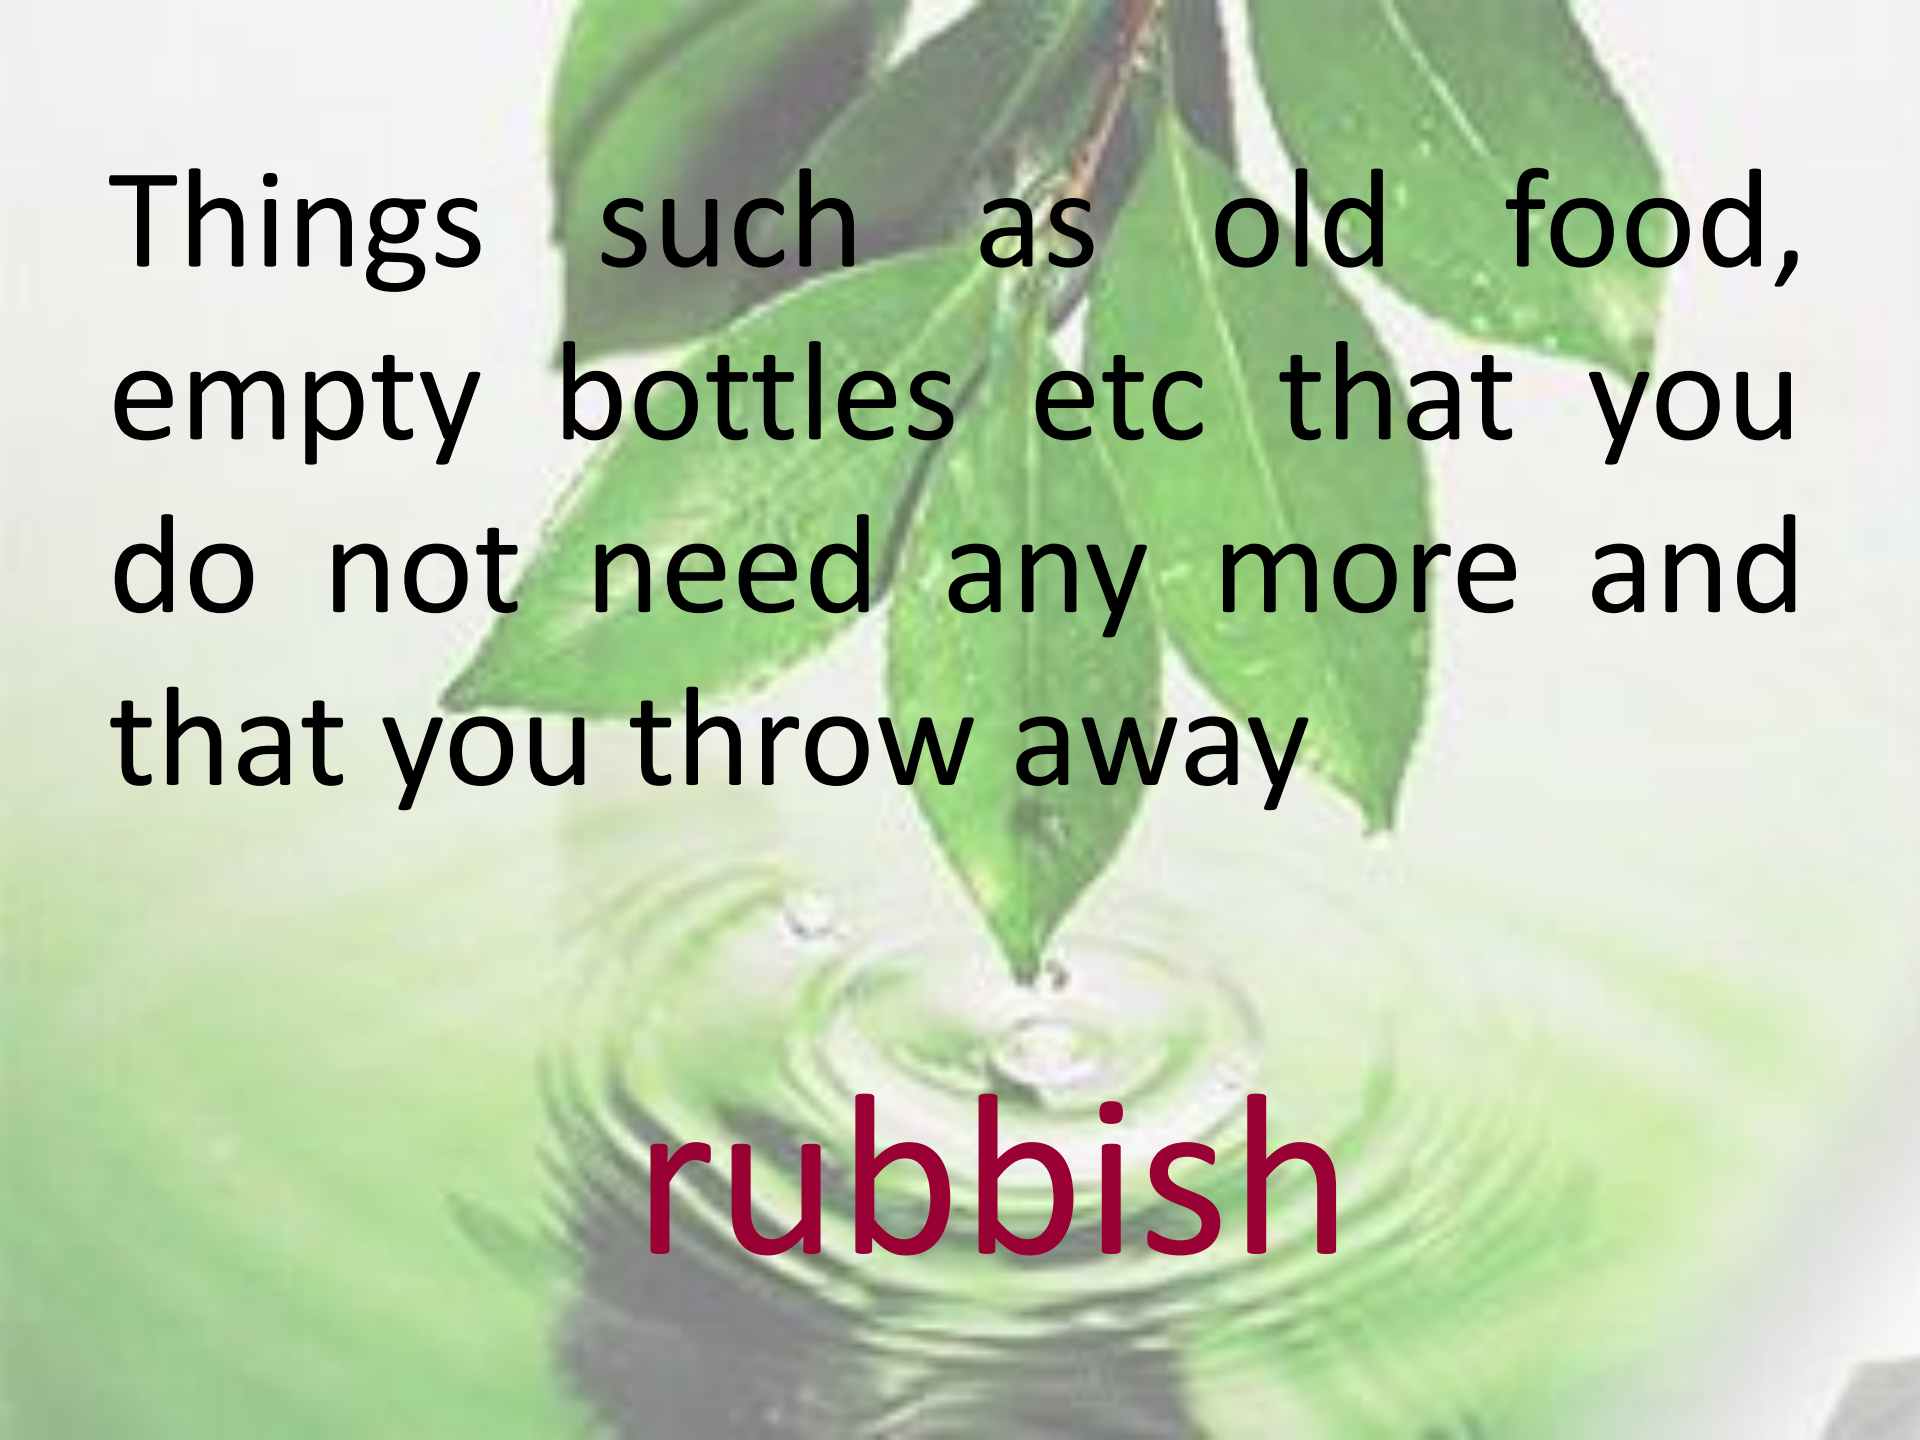

Unhealthy air in cities that is
a mixture of smoke, gases,
chemicals etc

smog

A photograph of a green leafy branch hanging over a body of water. The water is light green and has several concentric ripples. The background is a soft, out-of-focus green.

A place where garbage is
buried underground

landfill

A close-up photograph of a green leaf hanging over a body of water. A single drop of water is falling from the tip of the leaf, creating a series of concentric ripples on the water's surface. The background is a soft, out-of-focus green.

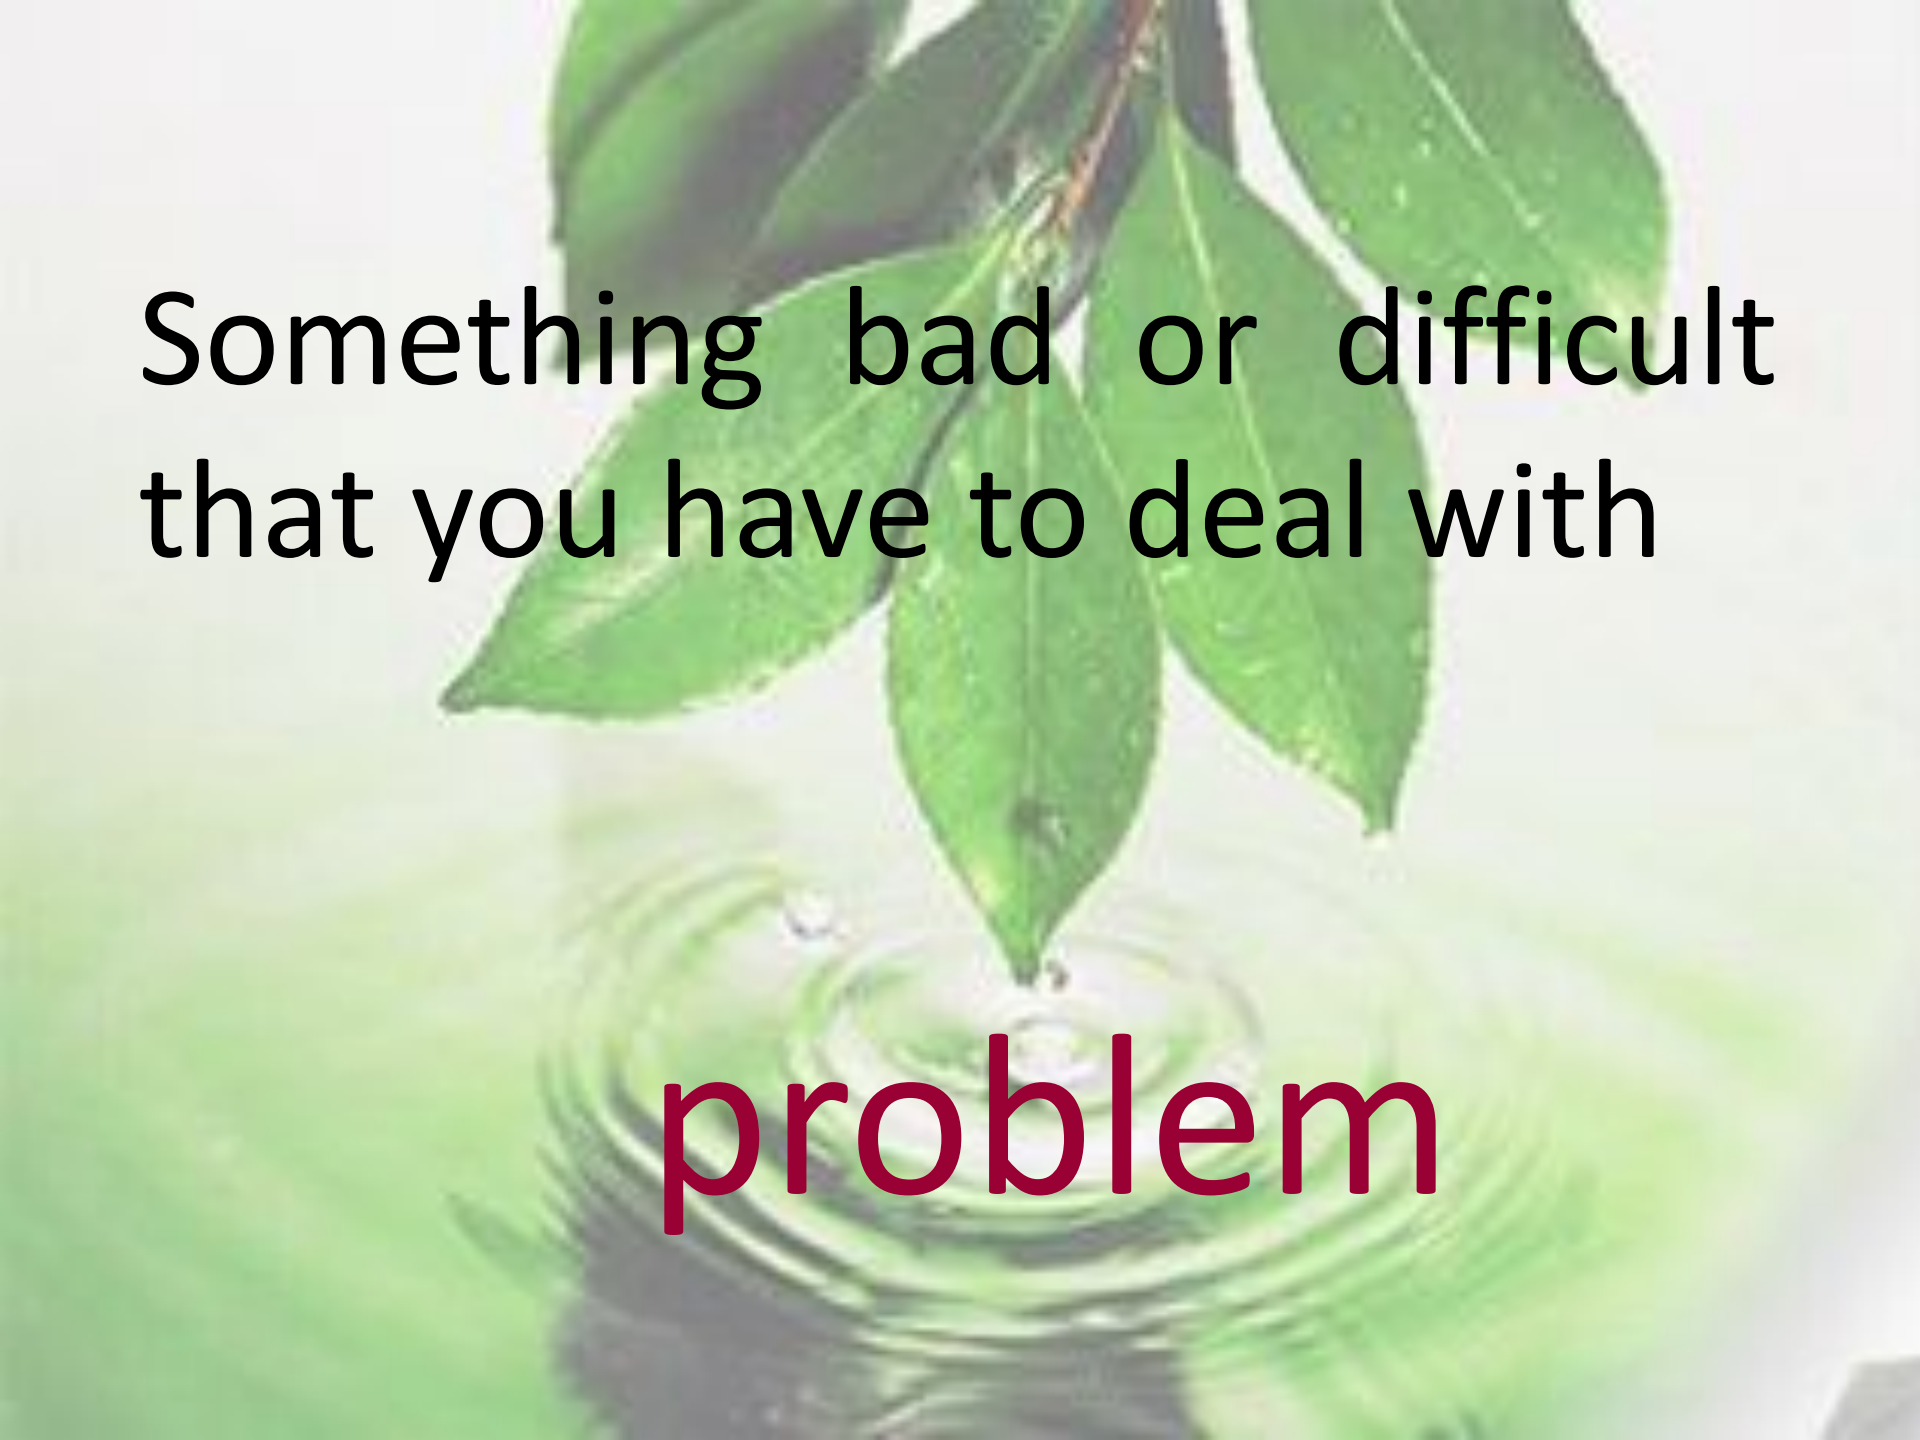

Things such as old food,
empty bottles etc that you
do not need any more and
that you throw away

rubbish

A close-up photograph of a green leafy branch. A single water droplet is captured mid-fall, just above the surface of a body of water. The droplet is about to hit the water, which is creating concentric ripples. The background is a soft, out-of-focus green.

To make the amount or size
of something less than it was
before

reduce

A close-up photograph of a green leaf hanging over a body of water. A single drop of water is falling from the tip of the leaf, creating a series of concentric ripples on the water's surface. The background is a soft, out-of-focus green.

Something bad or difficult
that you have to deal with

problem

A close-up photograph of a green leafy branch. A single water droplet is captured mid-fall, just above a pool of water. The droplet is creating a small splash, and concentric ripples are visible on the water's surface. The background is a soft, out-of-focus green.

Synonyms of the word
“rubbish”

garbage trash
litter waste

A close-up photograph of a green leaf hanging from a branch, with a single drop of water falling from its tip into a pool of water below. The impact of the drop has created concentric ripples on the water's surface. The background is a soft, out-of-focus green.

We must also recycle
paper, glass and other
materials that people
can use again.

A close-up photograph of a green leaf hanging over a body of water. A single drop of water is falling from the tip of the leaf, creating a series of concentric ripples on the water's surface. The background is a soft, out-of-focus green.

We know now that we
must do more to
protect the environment.
