

MY LAST PURCHASE

The student of 1 course of group of Modern Foreign
Languages Tatyana Litvinkovich has executed

My last purchase was lenses and a solution for them

Because I have poor eyesight, every three months, I buy new lenses, now I go in simple glasses, but sometimes I want to feel what a sighted person feels, a ride on a carousel and see everything not vaguely, but clearly, without fear for that glasses will fall, because I'm in lenses.

sunglasses

I've been wearing eyeglasses since my childhood, and finally, after buying the lenses, I had the opportunity to purchase sunglasses

I bought my lenses and glasses at an optician's store in the town of Baranovichi, a very convenient shop, as it is close to the hostel, nice sellers, a wide selection of goods and a convenient schedule of work, I advise everyone.

I really like wearing lenses, it's really comfortable, you can not be afraid for something that will fall, you see bright and cool colors, life acquires new colors, and it's also convenient, for example, in summer you can easily sunbathe the whole face and swim in the lake seeing All around clearly, or in the winter, the lenses do not fog like glasses, I do not regret my purchases.

Thanks for attention, have a nice day)
