Opanci

The image shows a dense collection of traditional Croatian opanci shoes. Each shoe is made from light-colored, smooth leather. The upper part of the shoe is intricately woven with thin strips of leather, creating a textured, basket-like appearance. The soles are made of solid, light-colored wood, which is a characteristic feature of opanci. The shoes are piled together, showing various angles and details of the weaving and the wooden soles. The overall color palette is warm and natural, dominated by the tan and light brown tones of the leather and wood.
