Travel in Australia

Australian theatre is an important part of Australian culture. The theater came to the continent with the first settlers and has evolved through the mixing of cultures of the came together and the British, having absorbed the best traditions of British and Irish theatres. Australian playwrights and theatre artists have their own unique flavor, known in many countries since then, in 1788, the culture of the new continent was revealed to the world.

Nature of Australia

Quite unexpectedly, an opportunity came up to fly to Australia with family. **Australia is a multicultural society. People from about 200 nations live there.** And so we met many Russian tourists. Wherever we went was the ocean. in Australia, very beautiful nature. I really miss my home and look forward to when we get home.
