

# Tumor Irradiation

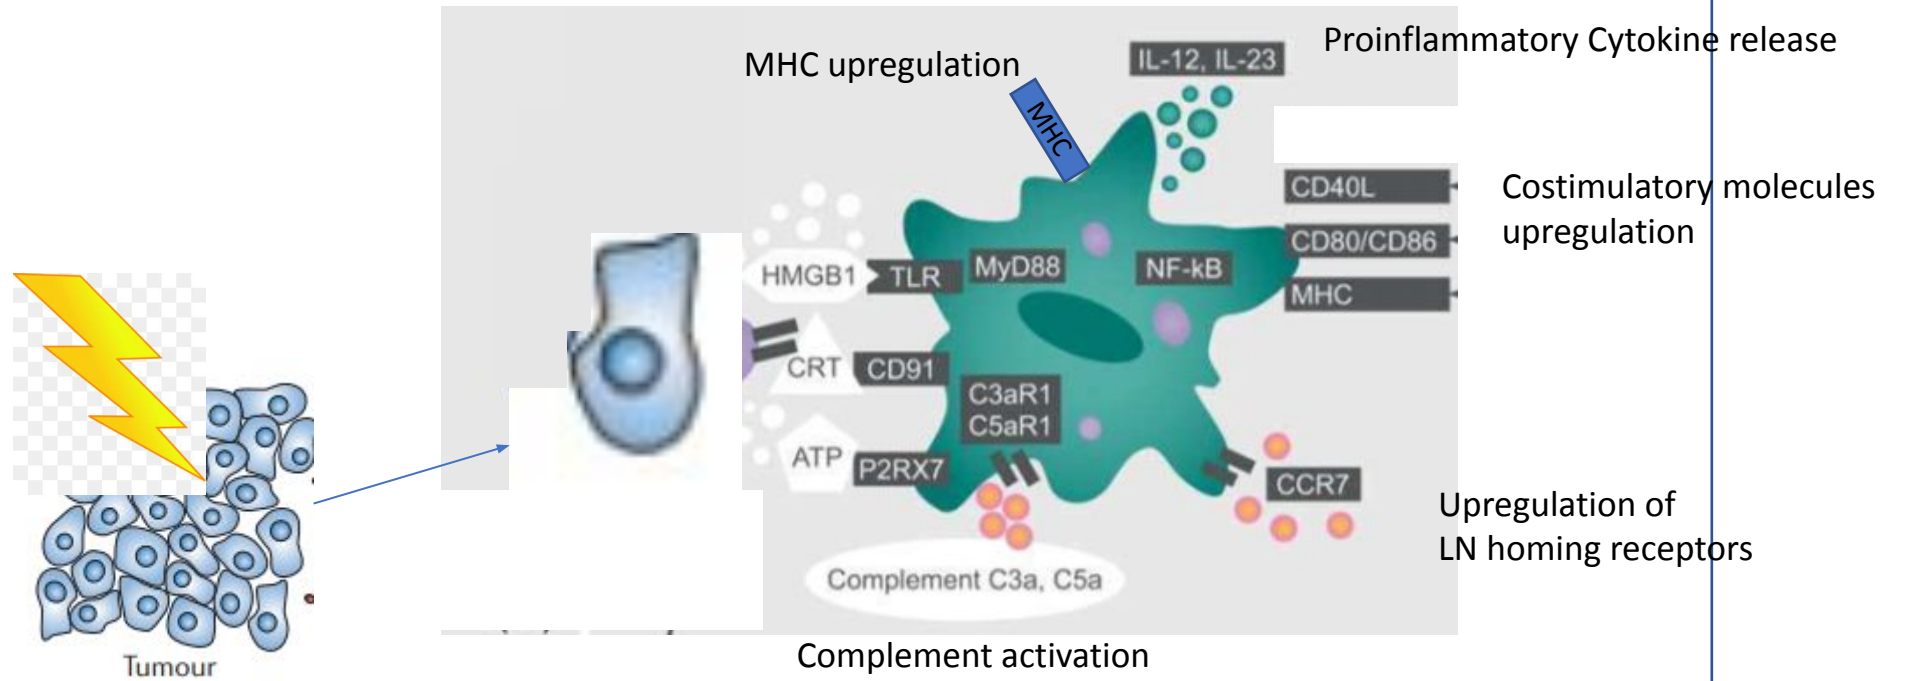

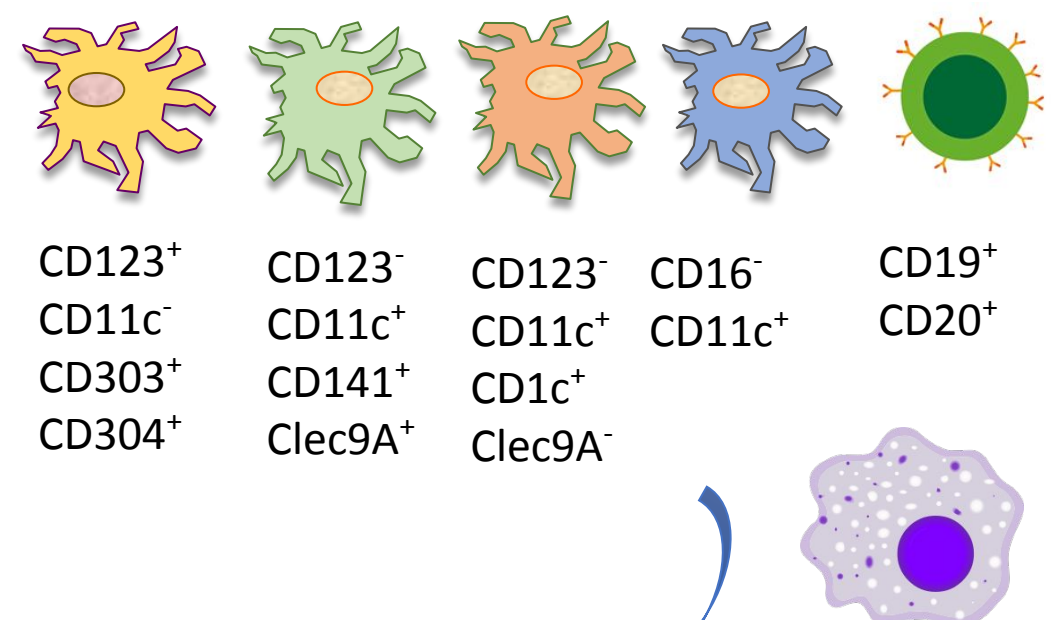

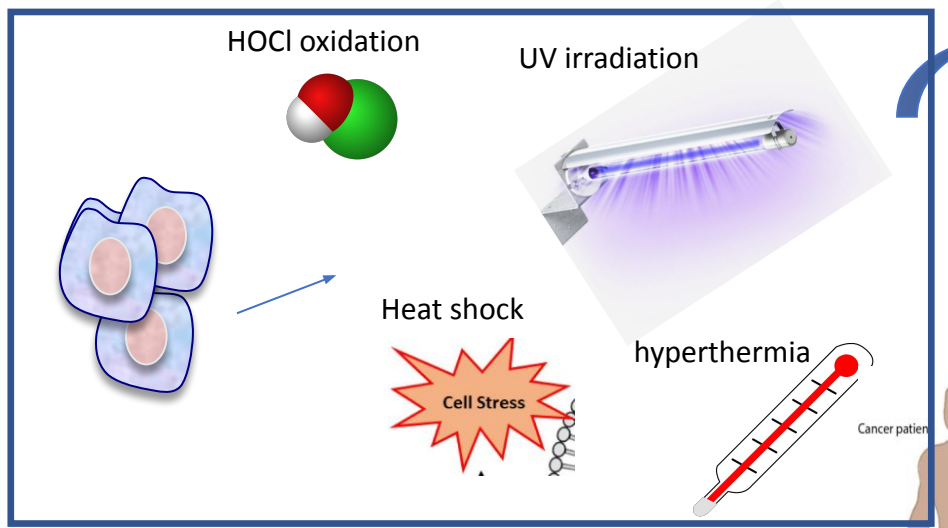

Figure 2

Antigen types

Immunogenic treatments

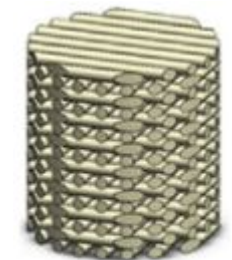

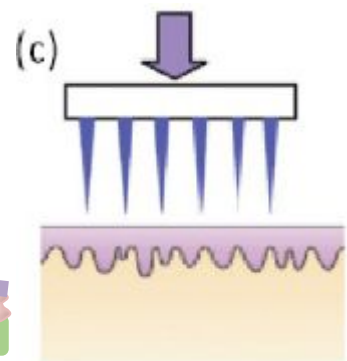

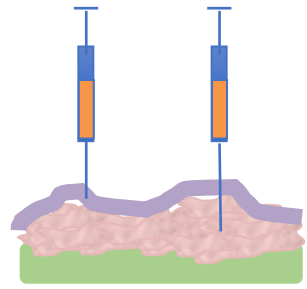

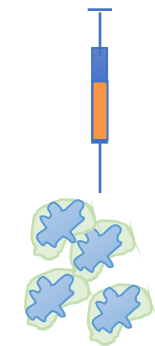

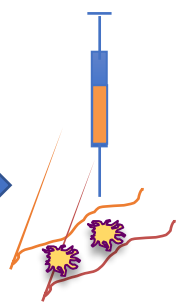

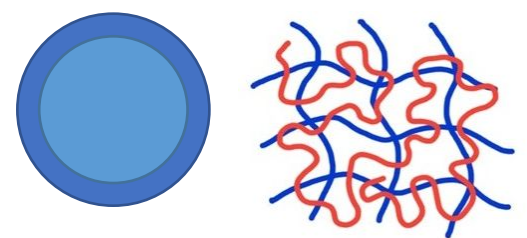

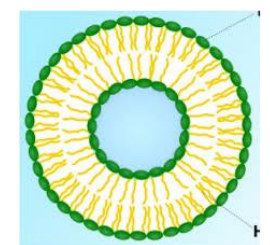

Principal APCs

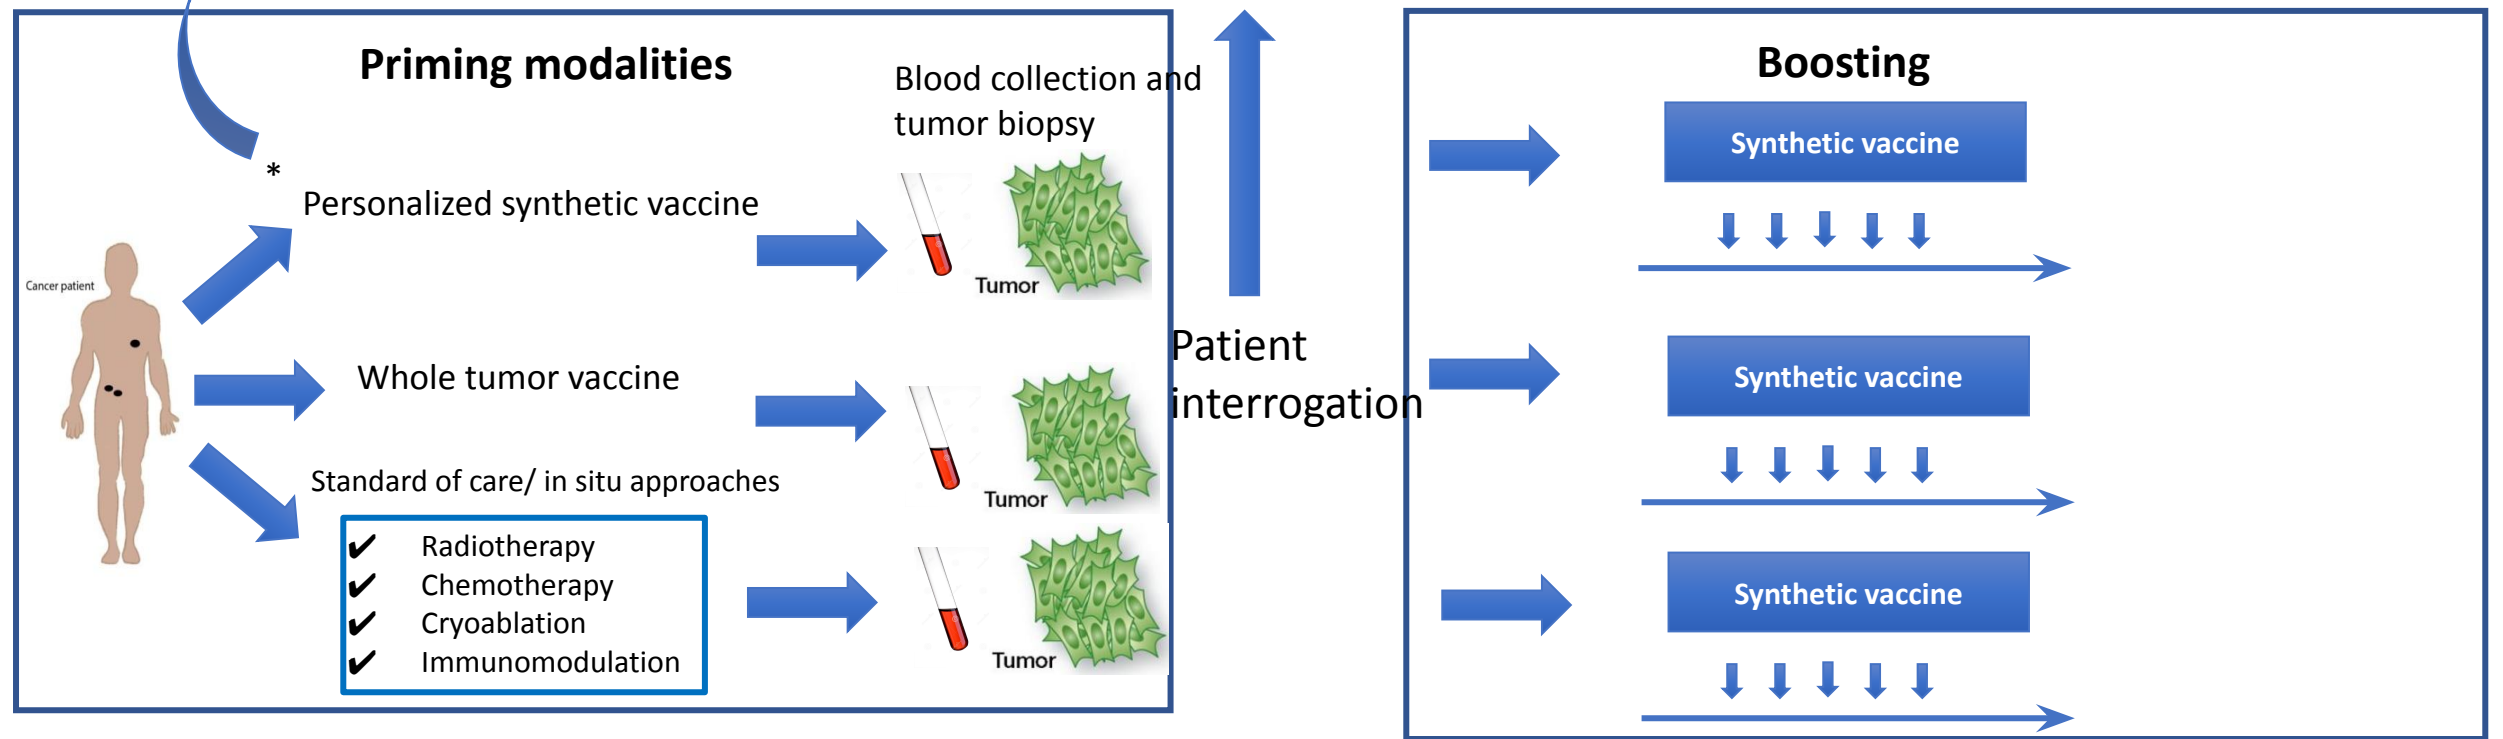

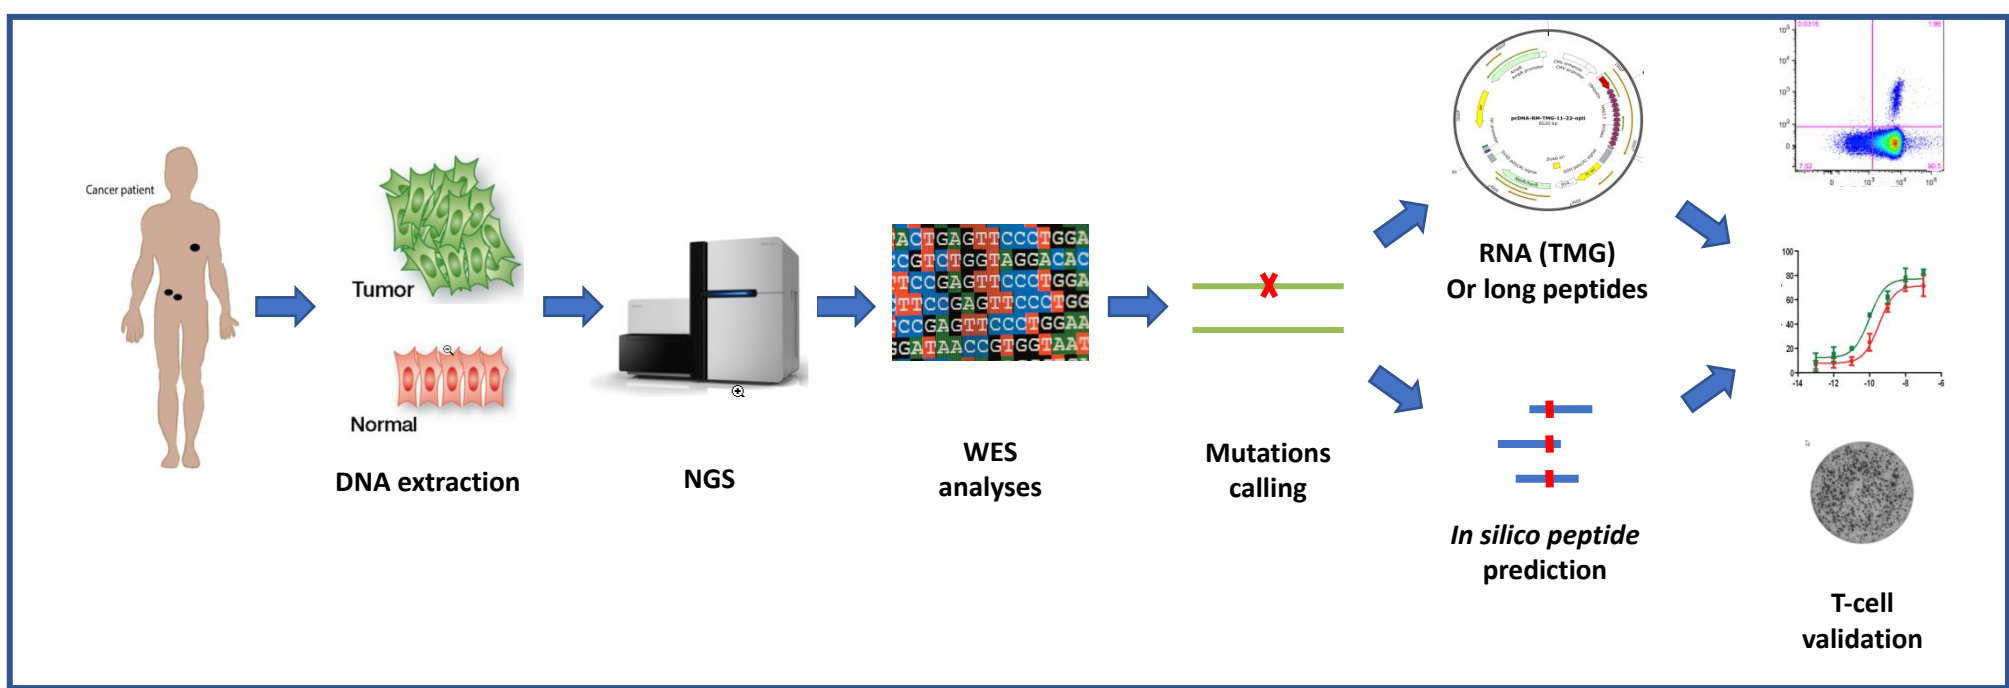

Routes of Administration

Synthetic encapsulation

Routes of administration

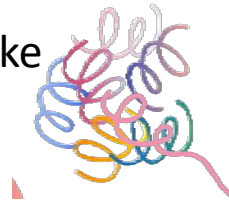

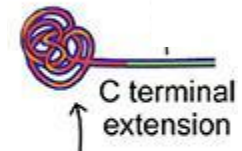

Info for the next slide:

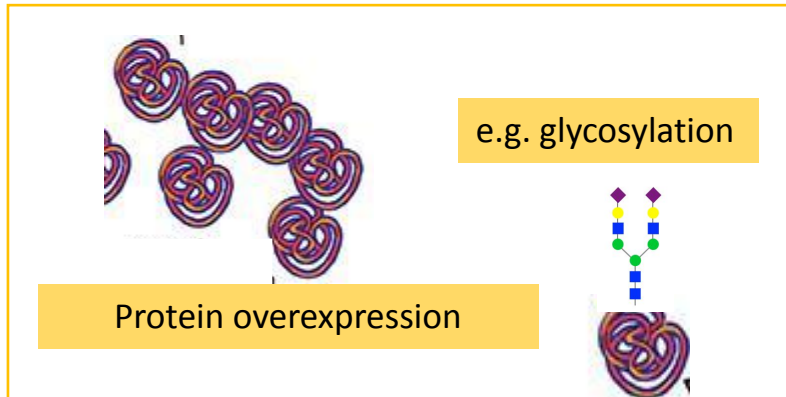

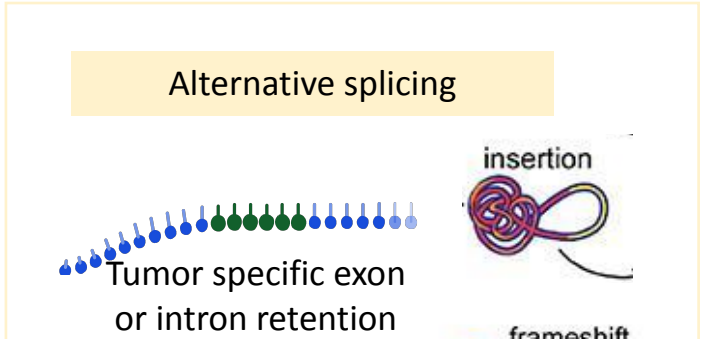

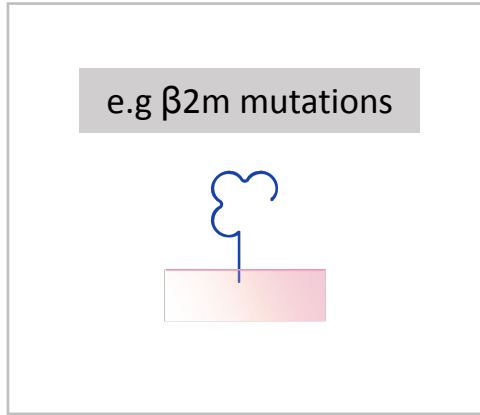

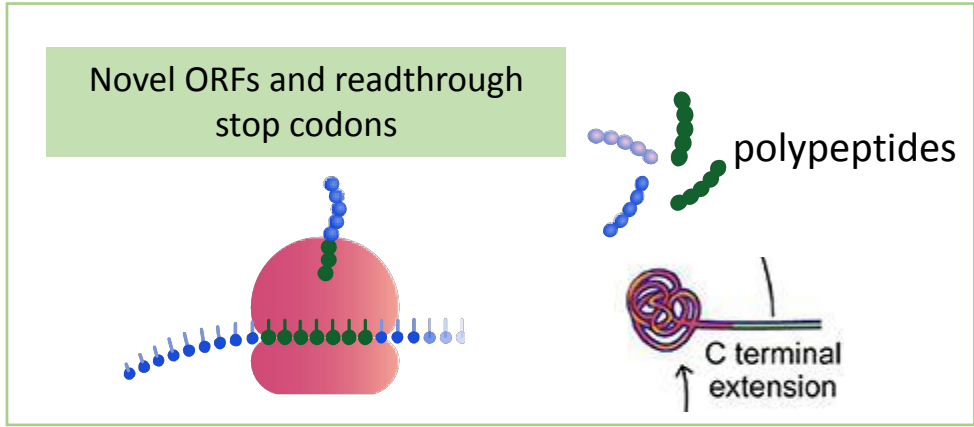

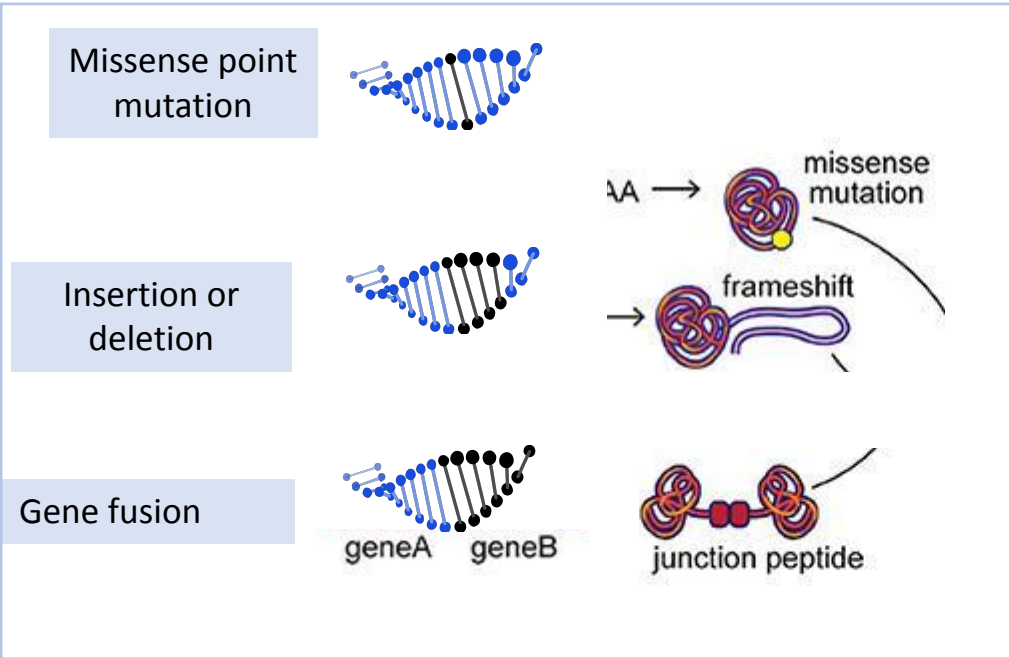

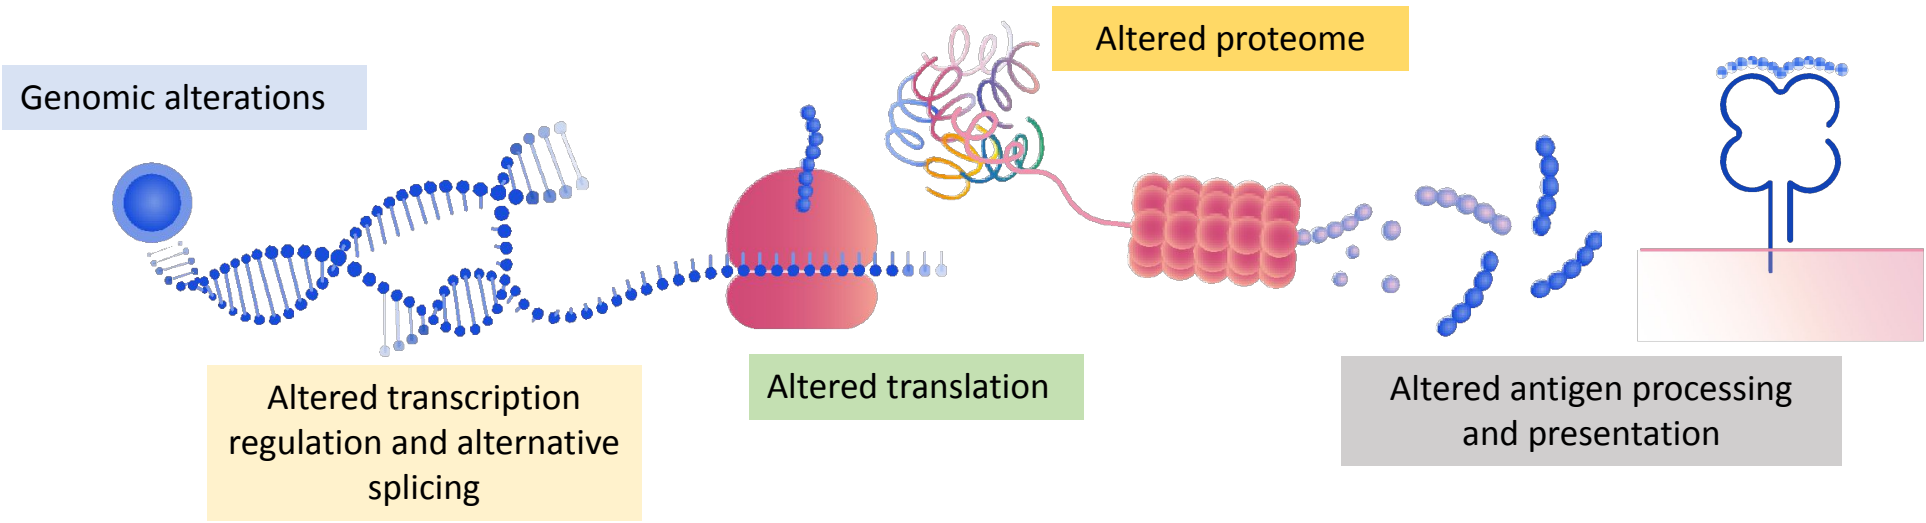

Proteins should look like

On single color, where the mutation/alteration in another color, for example:

Here is a version of the figure for my part. I tried to modify it so that it will not look so similar to the parental figure. If I get the polished figure in PDF format, I will be able to make small adjustments.
