□ I did shopping last week at **Korona**.

- It's a large self – service store, where prices are reasonable and the shelves are well stocked with a very wide selection of attractively packed goods

- There I bought some kind of goods.
- Firstly, I bought a colorful set of handles, a beautiful notebook and a red proofreader. The price was reasonable because these goods had a discount. I bought these goods for my study.

- I also bought a vase for my grandmother. The vase is big, oval, with flowers and brown. The price was reasonable.

Then I had join the queue at the check-out and paid by plastic card.
