

Давайте нарисуем ландыш

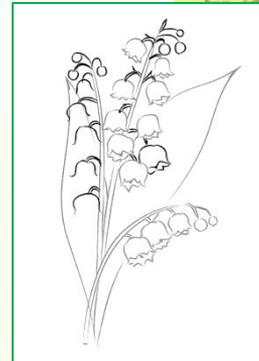

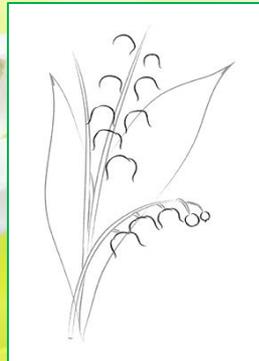

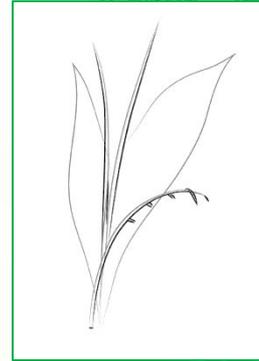

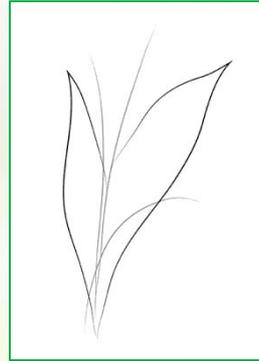

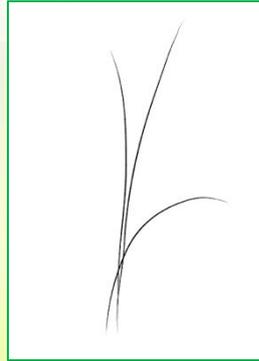

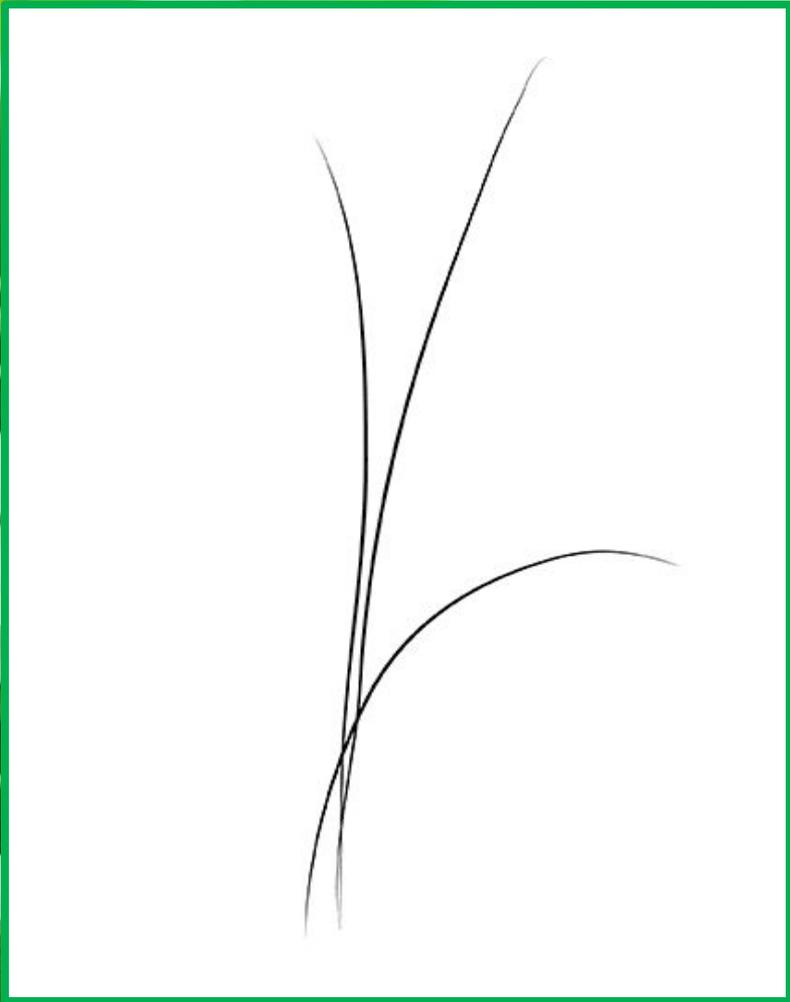

Цветёт он майскою порой,
Его найдёшь в тени лесной:
На стебельке, как бусы в ряд,
Цветы душистые висят.

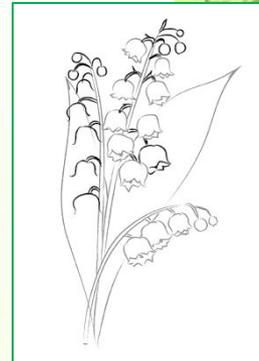

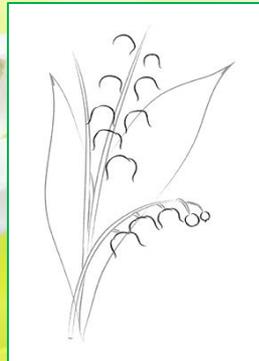

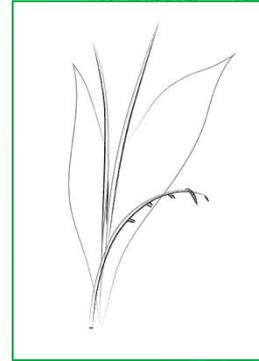

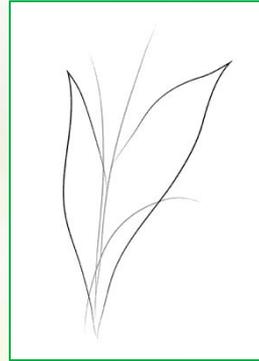

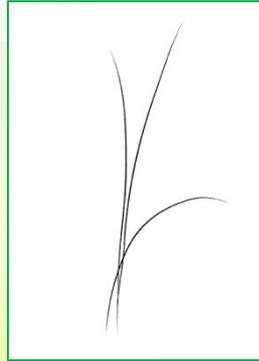

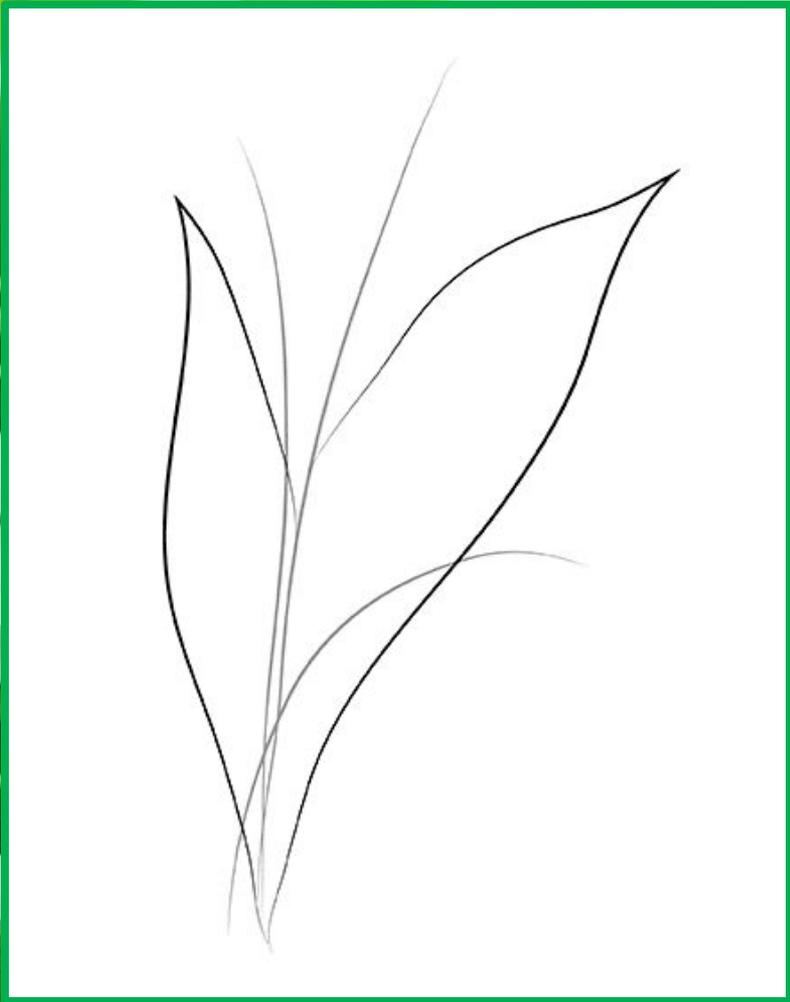

Конечно, это – ландыш. Давайте
попробуем нарисовать ландыш, один из
первых весенних цветов.

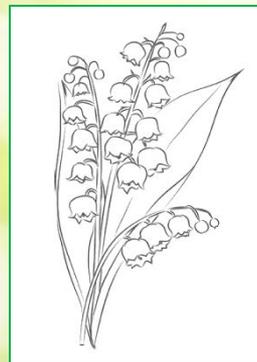

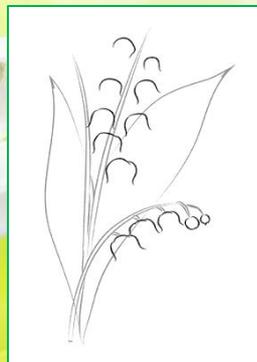

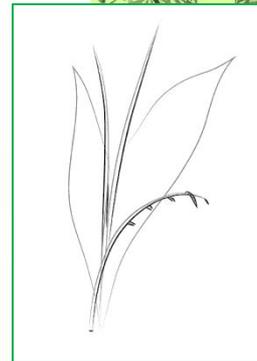

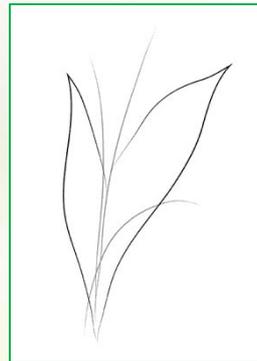

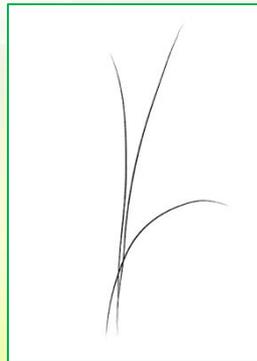

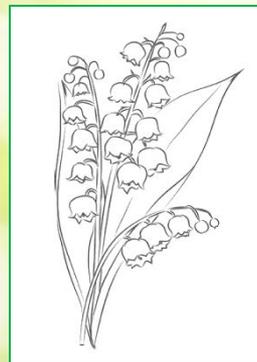

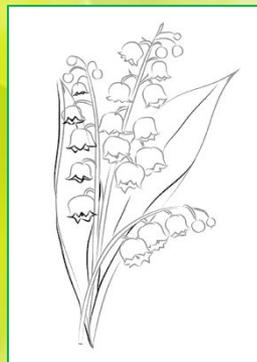

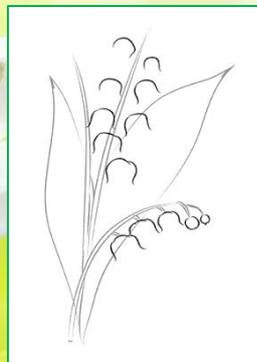

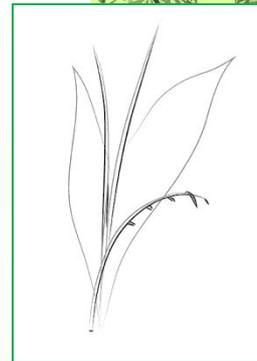

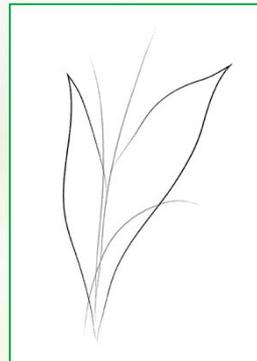

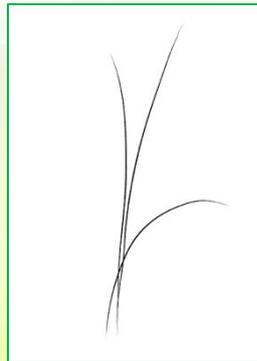

Нарисуйте три основы стебелька.

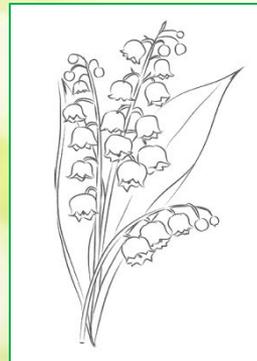

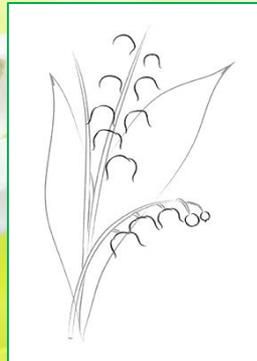

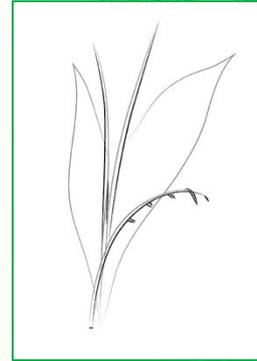

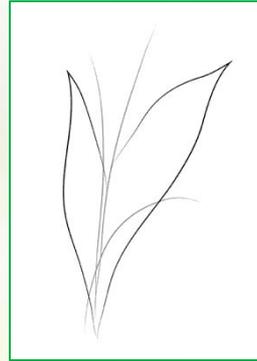

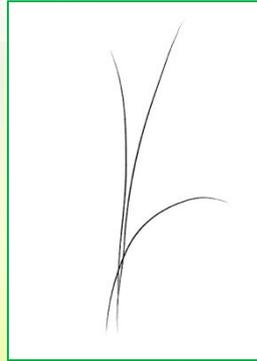

Затем два листика.

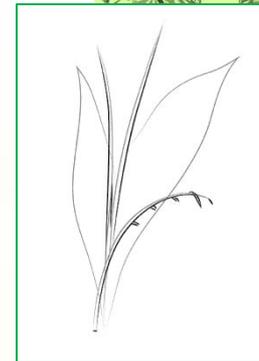

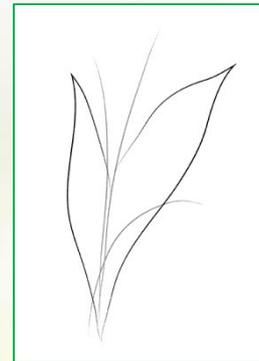

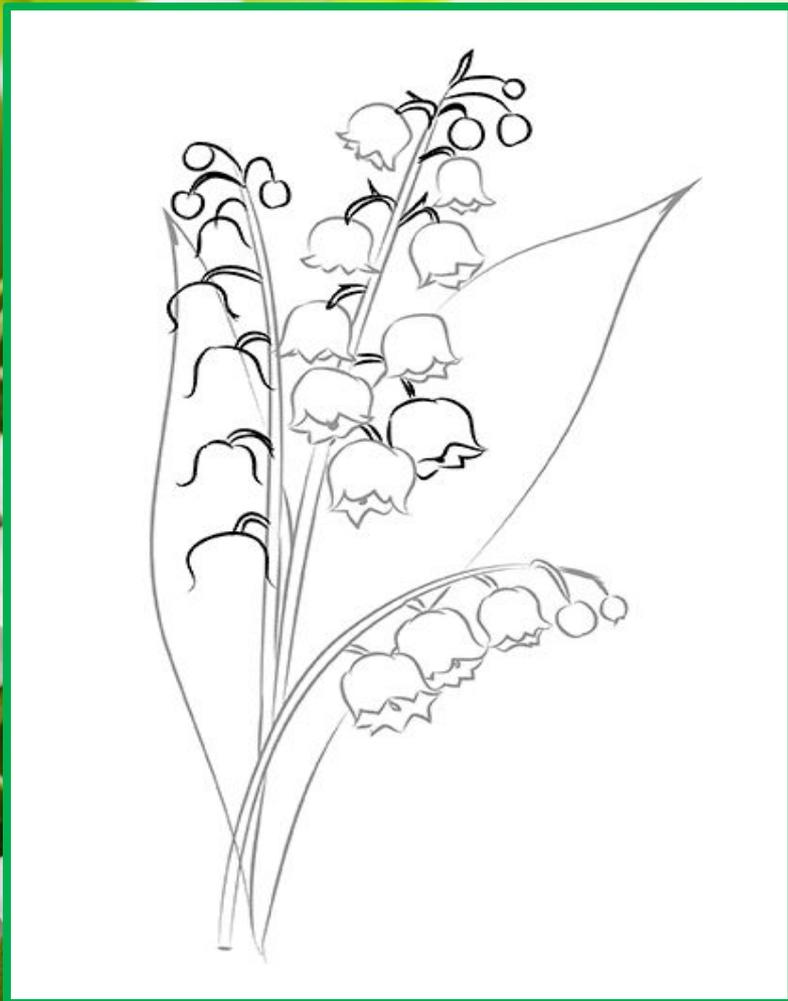

Делаем стебли объемными и на нижнем рисуем веточки, которые держат цветы ландыша.

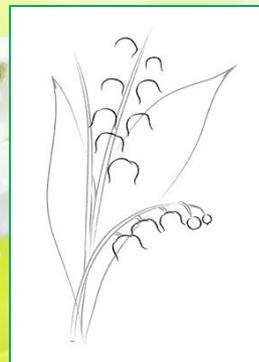

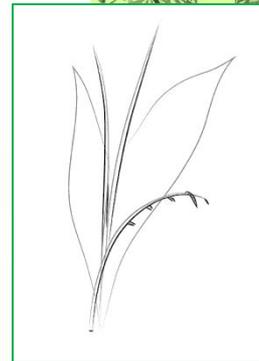

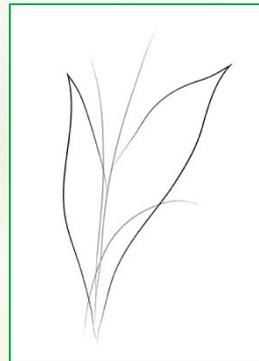

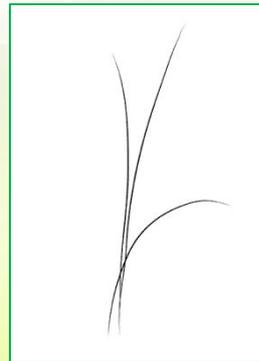

Рисуем шапочки цветков, а на конце нижней ветки — бутоны.

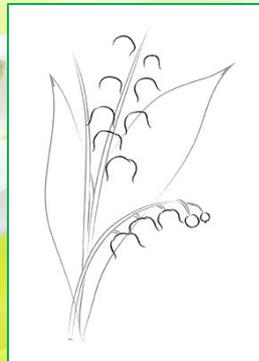

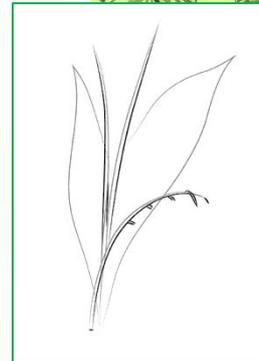

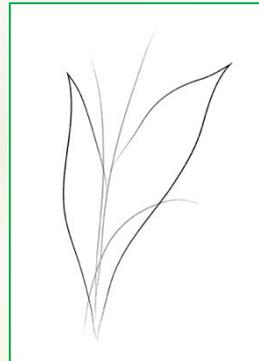

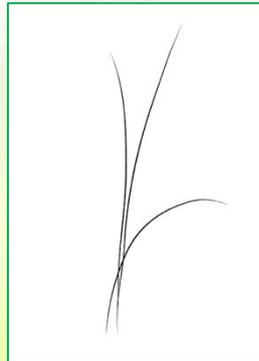

Прорисовываем нижнюю часть, у некоторых -
пестик.

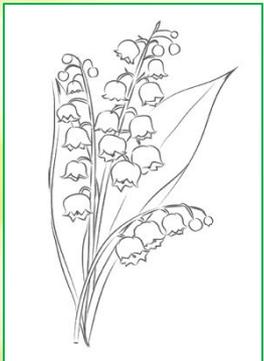

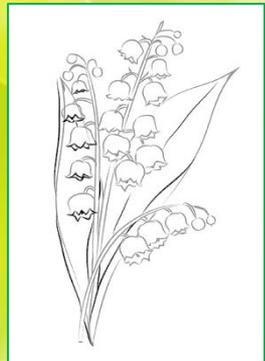

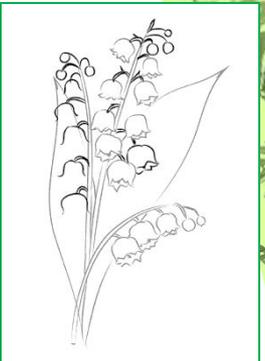

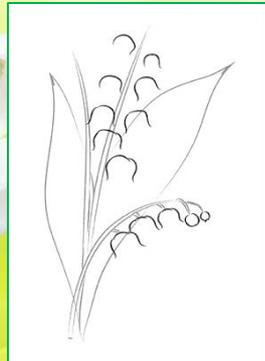

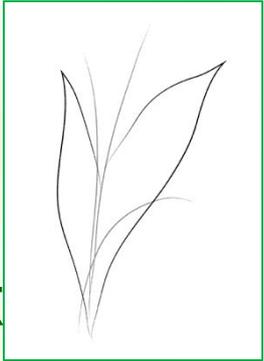

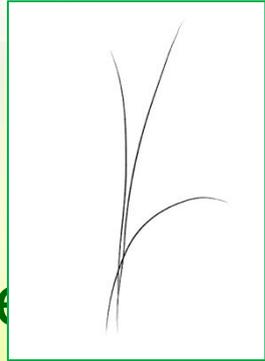

На кончиках стеблей рисуем бутоны, потом веточки и основу цветков.

Рисуем загнутые стороны листиков и дорисовываем цветки.

Стираем все лишние линии.
