Sarah Tyson likes shopping and friends. I think she couldn't live without her mobile phone.

What technology couldn't I live without?
Well, my mobile phone is essential. I talk about it all the time. I have a lot of photos on it. I use it for communication - email, text, social media and video. I use it for networking. As a professional, it goes without saying that I depend on my laptop and tablet. It's especially useful for work. I'm naturally a bit of a tech geek. A particular gadget that really helps me out is my digital camera. I use it so much that I would feel quite lost without it! I use it like a diary. I've got my schedule in there, my clients' contact details, and even my shopping list. It's totally hooked on my PlayStation 4*. I know I'm getting a bit old for computer games, but I'm still very keen on it. I can play for hours.

Andy Cooper likes music and video games. I think he couldn't live without his MP3 player and his computer.

Apart from work, I've always had a passion for photography, so my absolute favourite gadget at the moment is my new digital video camera. I'm having so much fun learning to make my own short films. I edit them using software on my laptop. It's a great pastime.

"I'm a complete tech freak, so I really couldn't live without technology, but I can't say there are three things I couldn't live without! That's because my smartphone does everything. I guess no one these days can live without it. The more up-to-date someone is with tech, the less they need any other gadget. Mine has got good high-speed mobile broadband, so I use it to access the internet all the time, to review the lecture notes my professors put online, to check up on social networks, or to watch films or listen to music. My hometown is quite far from my university, so on the bus journey it's really handy being able to put on my headphones as a background music. Of course, my computer is a pretty good quality camera, so that's taken care of, too. I'm a bit ashamed to admit it, but there is one other device I couldn't live without though. I'm totally hooked on my PlayStation 4. I know I'm getting a bit old for computer games, but I'm still very keen on it. I can play for hours.

Work in groups of four. Take the roles of an interviewer and the people in the text. Conduct an interview about their favourite gadgets.

What is your favourite gadget?

What about you?

So do you like playing computer games?

And you? What is your favourite gadget?

Write an article about your favourite gadgets to be published in the school magazine. Write:

- what three things you couldn't live without
- what they do
- why you couldn't live without them.

My Favourite Gadgets

I can't imagine life without my mobile phone. I am always sending text and picture messages to my friends. Without it I'd feel so alone. I'd also feel lost without my digital camera because I'm very keen on photography. It takes great photographs. I also couldn't live without my MP3 player. I have stored all my music on it and I download new songs all the time. Without it I wouldn't be able to listen to my favourite songs whenever I like.

Words of Wisdom

Technological progress has merely provided us with more efficient means for going backwards.

(Aldous Huxley, English author)

Underline the correct words. Then match the speakers to the gadgets they describe.

A Video mobile phone

Eva

Ann: "It's great. I can 1) store/carry up to 5,000 songs on it and listen to them anywhere and anytime I like. Because it's so small, I can 2) have/carry it around in my pocket. I don't know what I'd do without it!"

Eva: "I can use it to talk to friends, 3) play/send them messages, 4) play/take photos and even videos."

Duncan: "I always 5) send/have it with me wherever I go. It's my mobile office and all the documents and information I need for my business are 6) carried/stored on it. I don't just use it for work though, I use it to 7) save/play games, too."
